

**Session 1: Basic Cardiac Arrhythmias**  
**Tuesday, February 12, 2019**  
**1:00 – 3:00 p.m.**

**Learning Outcome:** As a result of this activity, the learner should be able to evaluate basic cardiac arrhythmias.

A refresher course designed for providers who want to review and practice basic rhythm interpretation, seeking a practical approach for basic management of arrhythmias in clinical practice.

**Learning Objectives:** Upon conclusion of this program, participants should be able to:

1. Review the normal conduction system of the heart.
2. Discuss the basics of ECG tracings and how they correlate with cardiac conduction.
3. Identify brady arrhythmias including heart blocks and bundle branch blocks.
4. Identify typical atrial arrhythmias.
5. Identify worrisome ventricular arrhythmias.
6. Describe initial treatment for arrhythmias.

**Faculty:**

Sally E. Heusinkvelt, A.P.R.N., C.N.P.

Marcia K. Britain, A.P.R.N., D.N.P., C.N.P.
