International Dementia with Lewy Bodies Conference

December 1-4, 2015
Marriott Harbor Beach
Fort Lauderdale, Florida
Terms of Use

Disclaimer

This information is made available by Mayo Clinic for educational purposes only. The material is not medical advice and is not intended to represent the only, or best, methods or procedures appropriate for the medical situation discussed; rather is intended to present an approach, view, statement or opinion of the presenters that may be helpful or of interest to other practitioners.

Procedures, products or instrumentation systems used, discussed and/or demonstrated may be experimental and may not have yet received FDA approval.

All rights reserved. You may not copy, distribute, broadcast, sell, edit create new works from, or publically perform or display course materials without the permission of Mayo Clinic.

No Warranties

You understand and agree that the content or information contained or provided herein is provided on an "as is" basis. Mayo Clinic College of Medicine does not make any express or implied warranties, representations or endorsements whatsoever (including without limitation warranties of title or non-infringement, or the implied warranties of merchantability or fitness for a particular purpose) with regard to the information, content or service provided herein. In addition, Mayo Clinic College of Medicine does not guarantee this product will be free from technological difficulties and you understand that you are responsible for implementing sufficient procedures and checkpoints to satisfy your particular system requirements for accuracy of data input and output.

Limitation of Liability

The use of this service is entirely at your own risk, and in no event shall Mayo Clinic be liable for any direct, indirect, incidental, consequential, special, exemplary, punitive, or any other monetary or other damages, fees, fines, penalties, or liabilities arising out of or relating in any way to content, information, or service provided herein.

User Agreements

By accepting these materials, you agree that you will not:
1. Transmit any communications or content of any type that may infringe or violate any rights of any party.
2. Use this course material for any purpose in violation of local, state, national or international laws.
3. Use this course material as a means to distribute advertising or other unsolicited material to any third party.
4. Use this course material in connection with any material that is unlawful, obscene, defamatory, threatening, harassing, abusive, slanderous, hateful or embarrassing to any other person or entity.
Copyright and Trademark Information

The marks "Mayo," "Mayo Clinic," and the triple-shield Mayo logo are trademarks and/or service marks of Mayo Foundation for Medical Education and Research. The content and designs are protected by U.S. and international copyright laws. You may not copy, reproduce, republish, upload, post, display, transmit, or frame any of these materials without prior written consent from the copyright owners, except that you may view, display and print a single copy of these materials on a single computer for personal, noncommercial use only, so long as (1) you do not alter or modify the materials in any way; (2) you include all applicable notices and disclaimers (including copyright notices), and (3) you do not use the materials in a way that suggests an association with Mayo Clinic or an affiliated Mayo entity. You understand and agree that title to these materials shall not pass to you or any other user.

Disputes

By accepting these materials, you agree the rights and obligations herein shall be governed by the laws of the state of Minnesota, except that no state of Minnesota conflicts-of-law or choice-of-laws provisions shall apply; and the exclusive fora for any actions are the State District Court sitting in Olmsted County, Minnesota, or the United States Court for the District of Minnesota. You unconditionally agree to be personally subject to the jurisdiction of such court.

CME Activity Description

Scientist and Health Care Provider Track: This conference focuses on dementia with Lewy bodies (DLB), also known as Lewy body dementia. Lewy body dementia, which includes DLB and Parkinson's disease with dementia, is the second most common type of progressive dementia after Alzheimer's disease. This conference involves an international group of DLB experts as well as numerous other interested clinicians and scientists to provide updates on the key aspects of the disorder (including the cognitive, neuropsychiatric, neuroimaging, motor, sleep, autonomic and sensory manifestations). A particular focus of this conference is on the prodromal aspects of DLB. Updates on the genetics, biofluid correlates, molecular biology, animal models and neuropathologic characterization, as well as information on current symptomatic therapies and future potential disease-modifying therapies, are also presented.

Patient and Care Partner Track: The conference also features a Patient and Care Partner Track, a two-day educational conference occurring alongside the scientific conference. This track is tailored to families, care partners, interested professionals, and those living with Lewy body dementia. See the Patient and Care Partner Track page for additional information.

CME Activity Objectives

Upon conclusion of this program, participants should be able to:
• List the core clinical features of DLB
• Identify the key findings of DLB based on neuropsychological assessment and neuroimaging studies
• Identify the differences between DLB and other forms of dementia and discuss the clinical and pathological overlap between these disorders
• Explain drug and non-drug options for managing patients with DLB
• Articulate what resources or information may be the most critical for patients and families dealing with DLB

Attendance at this Mayo Clinic activity does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this activity.

Intended Audience

• Clinicians involved in evaluation and management of patients with DLB
• Investigators involved in dementia (especially DLB) research

Continuing Education Credit

Mayo Clinic College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Mayo Clinic College of Medicine designates this live activity for a maximum of 21.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
**CME Record of Attendance**

A Record of Attendance is provided to you during on-site registration. The Record of Attendance allows attendees to calculate their own credits of participation in the educational activity.

The total number of credits participants can earn per day is noted on the Record of Attendance. Below each day is a line to record the actual number of credits during which you participated in the educational activity. It is recommended that you record your actual credits daily as you proceed through the CME activity.

Upon conclusion of the CME activity, please total the number of credits you have recorded on the top half of the form, sign it, and return it with your evaluation to the registration desk.

The bottom half of the form represents your Record of Attendance, which **you must retain** for your records. Please make sure the number of credits claimed in both sections coincide. **No other documentation is provided to you after this CME activity.** The Record of Attendance has replaced the certificate.

The Record of Attendance can be used for requesting credits in accordance with state licensing boards, specialty societies, or other professional associations.

---

**CME Activity Evaluation**

The overall CME activity evaluation will be emailed following the activity to the email address that was provided when you registered. The CME activity evaluation is brief and will only take a few minutes to complete.

Faculty evaluations are emailed to attendees at the end of each day. Your feedback is important to us.

Your feedback is very important to us and will be used for planning future programs, as well as identifying faculty strengths and opportunity for growth.

---

**Recording Device Policy**

No recording devices, audio or visual, may be used during Mayo Clinic College of Medicine CPD activities. Duplication, distribution, or excerpting of this program, without the express written permission of Mayo Clinic, is strictly prohibited.

All of the proceedings of this program, including the presentation of scientific papers, are intended for limited publication only, and all property rights in the material presented, including common-law copyright, are expressly reserved by the Faculty and/or Mayo Clinic. No statement of presentation made is to be regarded as dedicated to the public domain. Any sound reproduction, transcript or other use of the material presented at this CME activity without the permission of Mayo Clinic is prohibited to the full extent of common-law copyright in such material.
Please turn all electronic devices (cellular telephones, pagers, etc.) to silent mode. As a courtesy to the presenters and other participants, phone calls should be taken outside of the general session.
Faculty, Planning Committee and Provider Disclosure Summary

International Dementia with Lewy Bodies Conference
December 1-4, 2015

As a provider accredited by ACCME, Mayo Clinic College of Medicine (Mayo School of CPD) must ensure balance, independence, objectivity and scientific rigor in its educational activities. Course Director(s), Planning Committee Members, Faculty, and all others who are in a position to control the content of this educational activity are required to disclose all relevant financial relationships with any commercial interest related to the subject matter of the educational activity. Safeguards against commercial bias have been put in place. Faculty also will disclose any off label and/or investigational use of pharmaceuticals or instruments discussed in their presentation. Disclosure of these relevant financial relationships will be published in activity materials so those participants in the activity may formulate their own judgments regarding the presentation.

Listed below are individuals with control of the content of this program who have disclosed…
