COURSE DESCRIPTION
The first Annual Mayo Clinic Faculty Development course is designed to enhance the skills of both novice and seasoned educators with tools to train, precept and mentor their learners. The program will include didactic lectures, illustrative cases, and simulation techniques designed to provide a road map and understanding of the most up to date methods to educate the next generation of medical professionals. The agenda has been specifically designed to offer practical approaches that faculty educators may readily integrate into their daily teaching. The course faculty will address diverse areas of educational topics ranging from classroom/bedside teaching skills to developing research/quality improvement programs for the trainees.

COURSE LEARNING OBJECTIVES
Upon conclusion of this program, participants should be able to:

• Identify the optimal approach to provide effective feedback to the trainees
• Summarize steps to provide effective remediation to the struggling learners
• Review adult learning strategies in medical education
• Recognize the importance of developing research and quality improvement programs for the trainees
• Utilize simulation techniques to explore clinical teaching
• Discuss various models of bedside teaching
• Identify techniques to make lectures effective for the learners

Attendance at this Mayo course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

INTENDED AUDIENCE
This course is intended for Physicians, Physician Extenders, and Allied Health who are involved with the education and teaching of Residents and Fellows, as well as, Medical and Health Science students.
