COURSE HIGHLIGHTS
• Provides clinically relevant updates for management of psychiatric problems across all care settings.
• Topics include mood disorders, anxiety disorders, psychotic disorders, child and adolescent psychiatric treatment, psychotherapy techniques and strategies, sleep disorders, and a neurology update.
• Enjoyable and fast-paced.

TARGET AUDIENCE
This multidisciplinary course is intended for health care providers who see patients with psychiatric indications. Specialties include neurologists, psychiatrists, primary care physicians including internists and family care practitioners, allied health personnel including nurse practitioners, physician assistants and nurses.

LEARNING OBJECTIVES
Upon conclusion of this program, participants should be able to:
• Analyze and apply treatment strategies for major depression and anxiety disorders
• Describe evidence based options for the treatment of bipolar disorder
• Describe strategies for management and treatment of psychotic disorders

COURSE DIRECTORS
Brian A. Palmer, M.D., M.P.H. & Kristin S. Vickers Douglas, Ph.D., L.P.
