Dear Exhibit Representative:

On behalf of the course directors of the International Dementia with Lewy Bodies Conference, we invite you to exhibit at conference December 1-4, 2015 in Ft. Lauderdale, Florida.

This accredited conference is intended for clinicians involved in evaluation and management of patients with dementia with Lewy bodies and investigators involved in dementia (especially DLB) research.

The conference focuses on dementia with Lewy bodies (DLB), also known as Lewy body dementia. Lewy body dementia, which includes DLB and Parkinson's disease with dementia, is the second most common type of progressive dementia after Alzheimer's disease. The conference involves an international group of DLB experts as well as numerous other interested clinicians and scientists to provide updates on the key aspects of the disorder (including the cognitive, neuropsychiatric, neuroimaging, motor, sleep, autonomic and sensory manifestations). A particular focus of this conference is on the prodromal aspects of DLB. Updates on the genetics, biofluid correlates, molecular biology, animal models and neuropathologic characterization, as well as information on current symptomatic therapies and future potential disease-modifying therapies, are also presented.

We anticipate 400-800 attendees from around the world. Complete course details can be found on the conference website.

The exhibit space is an 8’ tabletop and the fee to display at this conference is $4,500.

Mayo Clinic, an integrated, not-for-profit group practice, is committed to meeting its responsibility as a national medical education resource and is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians (AMA).
