Course Description

*Mayo Clinic Mechanical Ventilation Conference* is designed to provide high quality education and detailed hands-on instruction in mechanical ventilation management and to bring physicians, respiratory therapists, and other health care providers who are involved in providing respiratory care on a daily basis.

Course Learning Objectives

Upon conclusion of this program, participants should be able to

1. Outline the physiologic principles and cardiopulmonary interactions underlying the risks, benefits, and applications of ventilator support for respiratory failure.
2. Describe in detail the use of different modes of ventilator support for patients with respiratory failure.
3. Demonstrate appropriate use of mechanical ventilation equipment following participation in hands-on workshop.
4. Integrate pulmonary mechanics at the bedside in a personalized approach to mechanical ventilation.

Intended Audience

Mayo Clinic Mechanical Ventilation Conference is designed for critical care providers, respiratory therapists, physicians, physician assistants and nurse practitioners.

Credit

In support of improving patient care, Mayo Clinic College of Medicine and Science is jointly accredited by the Accreditation Council for Continuing Medical Education (ACGME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

The American Medical Association (AMA) and the Accreditation Council for Continuing Medical Education (ACCME). Mayo Clinic College of Medicine and Science designates this live activity for a maximum of 17.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Association for Respiratory Care approves a maximum of 17.25 contact hours Continuing Respiratory Care Education (CRCE) credit for this activity.
**Date and Location**

*Mayo Clinic Mechanical Ventilation Conference* will be held October 10-12, 2019. Conference headquarters will be located in Heritage Hall on the subway level of The Kahler Grand Hotel, 20 SW Second Avenue, Rochester, Minnesota 55902. Meeting facilities are easily accessible by skyway and pedestrian subway, which connect The Kahler Grand Hotel to Mayo Clinic, shops, and a variety of restaurants.

**Registration**

To register online, visit [https://ce.mayo.edu/anesthesiology/content/mayo-clinic-mechanical-ventilation-conference-2019](https://ce.mayo.edu/anesthesiology/content/mayo-clinic-mechanical-ventilation-conference-2019).

**The registration fee includes:** conference registration, daily continental breakfast, break refreshments and lunches (meeting participants only), and welcome reception.

Although it is not Mayo Clinic School of Continuous Professional Development (CPD) or Mayo Clinic Department of Pulmonary and Critical Care Medicine and Mayo Clinic Department of Anesthesiology and Perioperative Medicine CME policy to limit the number of registrants for a conference, conference room facilities may necessitate closing of enrollment, therefore, early registration is advised. A letter of confirmation will be sent upon receipt of payment and completed registration form. Please present the confirmation letter when checking in at the meeting registration desk.

**For additional information, contact:**

Mayo Clinic School of Continuous Professional Development  
Plummer Building 2  
200 First Street SW  
Rochester, MN  55905  

**Website:** [http://ce.mayo.edu/ventilationconference2019](http://ce.mayo.edu/ventilationconference2019)  
**Phone:** 800-323-2688

**Cancellation Policy**

Requests for cancellations must be submitted in writing to cme@mayo.edu. When cancelling a registration for a conference for a conference 14 days or more before the conference start date, a full refund (minus a $75 administrative fee) will be issued in the same form of payment the registration was received. No refunds are granted less than 14 days before the conference start date.

Mayo Clinic Department of Pulmonary and Critical Care Medicine, Mayo Clinic Department of Anesthesiology and Perioperative Medicine and/or Mayo Clinic School of Continuous Professional Development reserves the right to cancel or postpone any conference due to unforeseen circumstances. In the unlikely event Mayo Clinic Department of Pulmonary and Critical Care Medicine, Mayo Clinic Department of Anesthesiology and Perioperative Medicine and/or Mayo Clinic School of Continuous Professional Development must cancel or postpone this conference, Mayo Clinic School of Continuous Professional Development will refund the registration fee but is not responsible for any related costs, charges, or expenses to participants, including fees assessed by airline/travel/lodging agencies.
Travel

Rochester, Minnesota is a friendly city that greets thousands of visitors from around the world each year. The city is serviced by a modern international airport with multiple flights daily via American, United and Delta Airlines. Access to and from the airport is provided by taxi, shuttle service, and rental car. The airport is located approximately 10 miles from The Kahler Grand Hotel and the Mayo Clinic campus.

Note to Travelers: Several cities in the United States are named Rochester. When you make airline reservations and check your baggage, be sure that your destination is Rochester, Minnesota (RST) and that your baggage has been properly tagged.

Minneapolis/St. Paul International Airport (MSP) is located approximately 82 miles from Rochester. The following shuttle services offer multiple trips daily.

<table>

<td>$34 per person</td>
</tr>
</tbody>
</table>

Rates are quoted for one-way fares to or from the Minneapolis Airport. Rates are subject to change and do not include taxes, fee, or gratuities.

Travel arrangements are the sole responsibility of the individual registrant.

Parking

Parking is available in hotel and city ramps. The cost for parking is not included in the registration fee; parking will not be validated.
General Information

Accommodations

Guest rooms have been reserved for attendees and their guests with special course rates at the Kahler Grand Hotel. The hotel is easily accessible by skyway and pedestrian subway. In order to receive the special rate, reservations must be made before the room block is filled or before the expiration date of September 18, 2019, whichever comes first. Reservations will be taken following this date based on space and rate availability. Please identify yourself as a participant of the 2019 Mayo Clinic Ventilation Conference when making your reservation.

Kahler Grand Hotel
20 Second Avenue SW
Rochester, MN 55902
800-533-1655 or 507-282-2581
$149 (Deluxe King)

Mayo Clinic Ventilation Conference
or

Quoted room rates do not include taxes or service fees. All reservations must be accompanied by a first night room deposit or guaranteed with a major credit card. Check-in time is 4:00 p.m. on the day of arrival, and check-out time is 11:00 a.m. on the day of departure. Early arrival prior to 11:00 a.m. will incur an early arrival fee of $35.00.

Lodging arrangements are the sole responsibility of the individual registrant.

Mayo Clinic Department of Pulmonary and Critical Care Medicine and Mayo Clinic Department of Anesthesiology and Perioperative Medicine are not responsible for expenses incurred by an individual who is not confirmed and for whom space is not available at the meeting. Costs incurred by the registrant such as airline or hotel fees or penalties are the responsibility of the registrant.

Social Program

Welcome Reception – Wednesday, October 9, 2019 – 5:30 p.m.
Attendees and guests are cordially invited to join conference faculty for the Welcome Reception on Wednesday evening, October 9, 2019. Pre-registration is requested.
Faculty

Conference Directors

Richard A. Oeckler, M.D, Ph.D
John J. Marini, M.D
Gustavo A. Cortes Puentes, M.D
Todd J. Meyer, R.R.T., L.R.T.

Guest Faculty

Marcelo Amato, M.D., Department of Pulmonary and Critical Care Medicine, Professor of Medicine, University of São Paulo, Brazil

Richard Branson, MSc, R.R.T., Associate Professor of Surgery, Director of Clinical Research, Department of Surgery, University of Cincinnati College of Medicine, Cincinnati, Ohio. United States Chief Editor, Respiratory Care

Laurent J. Brochard, M.D., Chair, Interdepartmental Division of Critical Care Medicine, University of Toronto; Staff Physician, Critical Care Department, St. Michael’s Hospital. Keenan Chair in Critical Care and Respiratory Medicine, St. Michael’s Hospital and University of Toronto. Toronto, Canada

David J. Dries, MSE, M.D., Chair-Department of Surgery, HealthPartners Medical Group & Clinics, Regions Hospital, St. Paul; Professor of Surgery, Clinical Adjunct Professor of Emergency Medicine, and John F. Perry Jr. Chair of Trauma Surgery, University of Minnesota, Minneapolis, United States

Dean Hess, Ph.D, R.R.T., Assistant Director of Respiratory Care, Massachusetts General Hospital, Associate Professor of Anesthesia, Harvard Medical School, Boston, Massachusetts; United States Editor in Chief, Respiratory Care

Rolf D. Hubmayr, M.D., Emeritus Consultant, Division of Pulmonary and Critical Care Medicine, Mayo Clinic; Professor of Medicine and Physiology, Mayo Clinic College of Medicine. Rochester, Minnesota, United States

Robert M. Kacmarek, Ph.D, R.R.T., Director, Respiratory Care Services, Massachusetts General Hospital, Boston, Massachusetts, United States

Neil R. MacIntyre Jr., M.D., Medical Director of Respiratory Care Services, Pulmonary Function Laboratory and Pulmonary Rehabilitation Program, Chief of Clinical Services, Division of Pulmonary and Critical Care Medicine, Professor of Medicine, Duke University Medical Center, Durham, North Carolina, United States

John J. Marini, M.D., Department of Pulmonary, Critical Care and Sleep Medicine, HealthPartners Medical Group & Clinics, Regions Hospital, St. Paul; Professor of Medicine, University of Minnesota Medical School, Minneapolis, United States

Michael Quintel, M.D., Ph.D, Chair, Department of Anesthesiology, Emergency and Intensive Care Medicine. Professor of Anesthesiology, University of Göttingen. He served as President of the German Interdisciplinary Society of Intensive Care Medicine (DIVI). Göttingen, Germany

Richard K. Patch III, M.D.
Bernardo J. Selim, M.D.
Charles R. Sims III, M.D.
Day 1 – Thursday, October 10, 2019

7:00  Registration and Continental Breakfast
7:45  Welcome, Overview and Announcements.

Lectures: Basics Physiologic Principles: Understanding Mechanical Ventilation
8:00  Core Principles of Ventilatory Support: Equation of Motion, Pressures, Volumes, and Flow
8:30  Patient-Ventilator Interaction: Physiologic Changes Secondary to Mechanical Ventilation
9:00  Modes: Pressure vs. Flow Regulation
9:30  Refreshment Break and Exhibits
10:00 – 11:30  Breakout Sessions: Intensive Tutorials, Case Discussions, Introductory Workshops

11:30  Lunch and Exhibits

Lectures: Monitoring During Mechanical Ventilation
12:30  Imaging Technology in Hypoxemic Respiratory Failure: Ultrasound, Computed Tomography and Electrical Impedance Tomography
1:00  Bedside Pulmonary Mechanics: Measurement and Interpretation
1:30  Heart-Lung Interactions: Hemodynamics Monitoring in ARDS.
2:00  Refreshment Break and Exhibits

2:30 – 4:00  Breakout Sessions: Intensive Tutorials, Case Discussions, Introductory Workshops

Intensive Tutorials
Select ONE of these sessions (90 minutes):
1. Mechanical Ventilation Guided by Esophageal Pressure
2. Monitoring Diaphragmatic Activity and Respiratory Efforts
3. Fluid Responsiveness, Measuring Cardiac Output and Pulmonary Vascular Mechanics
4. Ventilator Waveform Analysis

OR select TWO of the following (45 minutes each):

Case Discussions
5. Refractory Hypoxemia – A Systematic Approach
6. Inability to Ventilate – Airway Obstruction and High Airway Pressures
7. Extra-Corporeal Life Support – Indications, Initial Evaluation and Implementation

Introductory Workshops
9. Pulmonary Vasodilators and Other Adjuncts to Mechanical Ventilation
10. Setting PEEP and Bedside Assessment of Lung Recruitability.

4:00  Get to Know the Experts - Q&A
4:30  Adjourn
Day 2 – Friday, October 11, 2019

7:15 Continental Breakfast

Lectures: Hypoxia

8:00 Managing the Lungs & Heart: Ventilator Settings to Optimize Oxygen Delivery

8:30 Open Lung Strategies Today: A Review of the Evidence and Clinical Application in ARDS

9:00 Extra-Corporeal Life Support: When to Start, When to Stop?

9:30 Refreshment Break and Exhibits

10:00 – 11:30 Breakout Sessions: Intensive Tutorials, Case Discussions, Introductory Workshops

Intensive Tutorials

Select ONE of these sessions (90 minutes):

1. Open Lung Strategy in 2019: Pros & Cons
2. Extra-Corporeal Life Support –Indications, Initial Evaluation and Implementation
3. Mechanical Ventilation, The Basics: Indications, Initial Assessment and Settings
4. Refractory Hypoxemia – A Systematic Approach

OR Select TWO of the following (45 minutes each):

Case Discussions

5. Monitoring the Ventilated Patient – Dyssynchrony and Pulmonary Mechanics
6. Inability to Ventilate – Neuromuscular Problems
7. Non-Invasive Ventilatory Support in ARDS

Introductory Workshops

9. Bedside Assessment of Auto-PEEP, and Lung Stress and Strain
10. Setting PEEP and Bedside Assessment of Lung Recruitability

11:30 Lunch and Exhibits

Lectures: Ventilation

12:30 Liberation from Mechanical Ventilation

1:00 Non-Invasive Ventilation, The Basics

1:30 Ventilating the Obstructed Patient

2:00 Advanced Modes of NIV and Patient Ventilation Synchrony

2:30 Refreshment Break and Exhibits

3:00 – 4:30 Breakout Sessions: Intensive Tutorials, Case Discussions, Introductory Workshops

Intensive Tutorials

Select ONE of these sessions (90 minutes):

1. Implementation and Monitoring of Non-Invasive Ventilation
2. Mechanical Ventilation in Asthma and COPD
3. Ventilator Waveform Analysis
4. Mechanical Ventilation Guided by Esophageal Pressure

OR Select TWO of the following (45 minutes each):

Case Discussions

5. Fluid Management During Mechanical Ventilation
6. Integration of Pulmonary Mechanics – Transpulmonary and Airway Driving Pressures
7. Unilateral and Asymmetrical Lung Injury

Introductory Workshops

8. Controlled Vs. Spontaneous Ventilation
9. Automated Withdrawal of Ventilation Support
10. Alternative Ventilator Strategies

4:30 Get to Know the Experts- Q&A

5:00 Adjourn
Day 3 – Saturday, October 12, 2019
