Aloha,

On behalf of course directors, John Bundrick, M.D. and Karen Mauck, M.D., and the Mayo Clinic School of Continuous Professional Development, we are pleased to announce our 31st Annual Selected Topics in Internal Medicine CME course which will be held January 28 – February 1, 2019 at the Hilton Waikoloa Village in Waikoloa, The Big Island, Hawaii.

Selected Topics in Internal Medicine (STIM) is a postgraduate course designed to update general internists, internist-subspecialists, family medicine specialists, and other primary health care providers on selected internal medicine topics. Some of the most common problems encountered in clinical practice will be represented. The focus will be on clinical pearls and practice updates. Presentations will be made by experts from various disciplines in internal medicine. Faculty members will be available during breaks to answer questions and to discuss cases with course participants. You may find additional details on the course website: <https://ce.mayo.edu/stim2019>.

The target audience includes general internists, internal medicine subspecialists, family medicine physicians and other primary health care providers. Each year we have experienced increased attendance and this year we are expecting 600-700 attendees.
