COURSE DESCRIPTION
This course emphasizes techniques in vaginal hysterectomy and associated (vaginal) procedures. Native tissue utero-vaginal prolapse surgery will also be reviewed. Expert surgeons will discuss step-by-step techniques that will subsequently be re-emphasized in video and live surgery format to aid learning. New technologies that facilitate vaginal surgery will be presented. The course features didactic lectures supplemented with video presentations and panel discussions.

LEARNING OBJECTIVES
Upon completion of this course, participants should be able to:
• Cite techniques for vaginal hysterectomy including morcellation of the enlarged uterus
• Review approaches to the difficult vaginal hysterectomy
• Demonstrate how to decrease the risk of injury at the time of vaginal hysterectomy
• Cite techniques for native-tissue utero-vaginal prolapse repair
• Review the literature and describe methods for vaginal salpingectomy and adnexectomy
• Illustrate management of vaginal mesh complications involving the bladder and urethra

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

INTENDED AUDIENCE
This course is designed for Urogynecology Surgeons, General Surgeons, Gynecologists, Urologists and any Allied Health Staff interested in considering the benefits of vaginal hysterectomy and other associated procedures.

GRANTS AND EXHIBITS
At the time of this printing, a complete listing of commercial supporters (financial or in-kind) was not available. Appropriate acknowledgment will be given to all supporters at the time of the meeting. Exhibits will be available for viewing at all scheduled breaks.

CREDIT
Mayo Clinic College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
