Compression Therapy Toolbox

Products to support your patients for life.

People.Health.Care.

Achieve the best outcomes. Individualize your therapy.

L&R USA INC. offers a full range of effective compression solutions, from the “gold standard” of bandaging to the Solaris Collection™ of garments and wraps for self-management.

When you choose L&R products, you can be confident your patients are in good hands with trusted brands like TributeNight™, ReadyWrap®, Tribute® Wrap, and Rosidal® K.

Our bandaging range offers the largest variety of products and sizes to best conform to the range of patient shape, size, and tissue needs you see every day.

The Solaris Collection™ — designed by lymphedema therapists through patient feedback — offers a range of products that supports lymphedema treatment from intensive phase all the way through self-management with daytime, nighttime, custom, and off-the-shelf solutions.

The Solaris Collection continues to expand to address your needs by listening to and understanding your clinical challenges and developing new products which leverage creative ideas about how to best meet your patients’ needs.

L&R USA is passionate about delivering innovative wound care and compression solutions for improved quality of life, as well as top-notch service to support you and your patients in their journey with lymphedema.

TributeNight™

Tried and trusted for over 20 years.

TributeNight™ is a custom-made therapeutic foam garment for self-management during the evening, nighttime, and low activity.

 Custom

 Evening & Nighttime

 Low Activity

Example garment styles

Why choose TributeNight™?

TributeNight™ was designed by lymphedema therapists to replace nightly multi-layer bandaging, offering patients an easy solution to maintain their therapy success on their own. Its proven foam technology nestles into the tissue to promote skin health¹ — which is key for lymphedema patients.

TributeNight offers customized therapy, incorporating patient needs for style, fit, functionality, and donning preferences in every garment.

POWERED BY 

- 12-month warranty
- Easy garment care in washer and dryer

SURE-FIT™ GUARANTEE

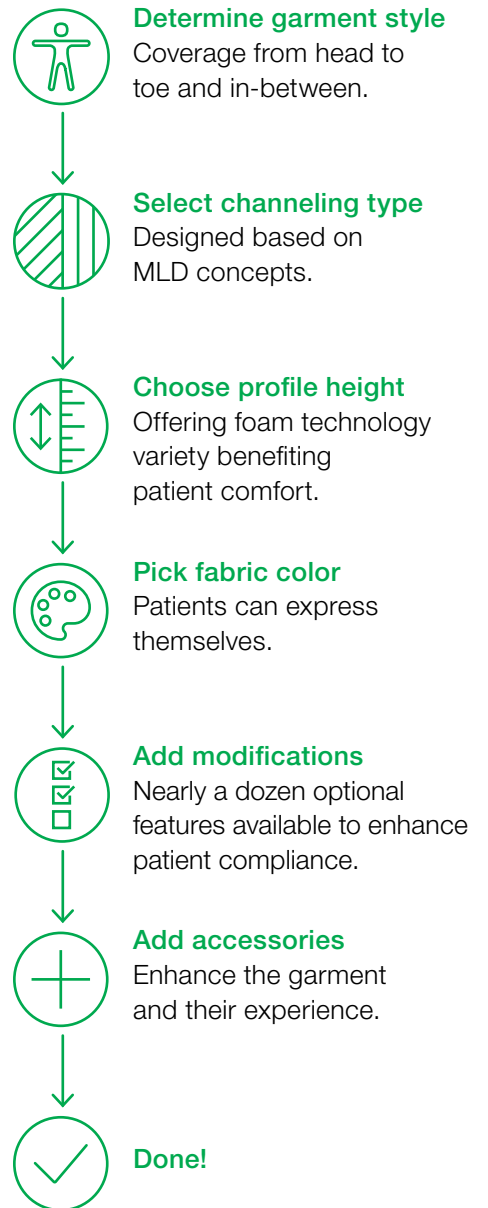

Measuring for custom garments is a combination of art and science, and we want to ensure you are confident in the design and customized fit of each TributeNight.

Each TributeNight garment is covered, at no extra charge, for the life of the garment by our industry-leading SURE-FIT™ Guarantee. This complimentary guarantee is comprised of three industry-leading services:

- First Fit Warranty
- Reduction Alteration Warranty
- Materials & Manufacturing Warranty

Building a custom TributeNight™ for your patient is easy.

Follow these simple steps:

ReadyWrap®

Clinically-effective and easy-to-use.

ReadyWrap® is an off-the-shelf adjustable compression wrap for transitioning out of therapy into self-management during the daytime, nighttime, and high or low activity.

 Off-the-Shelf or Custom*

 Day or Night

 High or Low Activity

Available styles

Why choose ReadyWrap®?

ReadyWrap® features low-stretch straps that mimic short-stretch bandaging to provide clinically-effective compression therapy with high working and low resting pressure, all while supporting patient compliance with its unique alternating strapping system which can be donned with a single hand.

The modular design of the ReadyWrap family allows each garment to be worn on its own or in conjunction with other styles.

With ReadyWrap, you can be certain your patients will have an effective and comfortable garment that easily adjusts to their limb and donning abilities.

- 6-month warranty
- Hand wash, lay flat to dry

ReadyWrap® Calf

Low-stretch material

Mimics short-stretch bandaging — the gold standard of treatment.

50% Overlapping straps[†]

Helps prevent gapping.²

Blocked support spine[†]

Helps maintain garment form to support all-day wear.²

Color-coded straps

Provides easy step-by-step donning guidance.

Tribute® Wrap

The adjustability of ReadyWrap meets the legendary performance of TributeNight.

Tribute® Wrap is an off-the-shelf adjustable foam compression garment for self-management during the evening, nighttime, and low activity.

 Off-the-Shelf

 Evening & Nighttime

 Low Activity

Available styles

Why choose Tribute® Wrap?

Tribute® Wrap is an innovative garment built with proven foam technology, which nestles into the tissue to promote skin health.¹ Each garment is fully adjustable, while comfortably adjusting to your patient's unique shape and lifestyle. Its adjustability helps patients maintain gains made during therapy, while allowing the flexibility to support further reduction.

Simply pull it on, adjust the straps, and slide on the Sleep Sleeve for a comfortable compression experience.

- 6-month warranty
- Easy garment care in washer and dryer

Tribute® Wrap Wrist to Axilla

Proven foam technology

Breaks up and softens hardened fibrotic tissue to support skin health.

Adjustable strapping system

Easily conforms for the right, comfortable fit.

Easy-to-pull finger grip

Simple pull function to support self-management.

Powered by Coolcore®

Innovative interior fabric with chemical-free Cooling Power which rapidly wicks away sweat and moisture to regulate body temperature.

ExoStrong™

Affordable alternative to custom flat-knit.

ExoStrong™ is an off-the-shelf flat-knit gradient compression garment for self-management during the daytime or high activity.

 Off-the-Shelf

 Daytime

 High activity

Available styles

Why choose ExoStrong™?

For lymphedema patients, flat-knit garments are one of the primary self-care options. Where circular-knit material can migrate into skin folds, flat-knit helps shape the limb and provides the high containment needed to maintain reductions made in therapy. Additionally, ExoStrong™'s soft, breathable design helps support patient compliance.

ExoStrong is a fraction of the cost of custom flat-knit garments, ensuring patients don't have to choose between an effective maintenance garment and one they can afford.

Supports mobility

High containment garment in a comfortable and functional design.

Quick and easy fitting

Only 2–5 measurements needed to select size for each style.

Ships quickly

Orders placed before 5 PM Central ship same day.

SwellSpots®

Small pads that offer big relief!

SwellSpots® are reusable therapeutic foam pads to incorporate into multi-layer bandaging or garments to provide focal compression to help soften troublesome areas of edema and fibrosis.

  Off-the-Shelf or Custom

  Day or Night

  High or Low Activity

Available off-the-shelf styles

“My patients find SwellSpots not only make it really easy to break up tough fibrosis and scar tissue, but also help alleviate any pain — making it easier to be compliant with their garments.”

Maureen McBeth, PT, CLT-LANA

Why choose SwellSpots®?

Using these versatile pads will save time spent cutting your own shapes or creating chip foam bags to allow more time for manual lymphatic drainage (MLD), bandaging, and patient education.

Select a pad style and size from our wide range of options, place either side of the pad directly against the skin then apply short stretch bandages over the top, or tuck into a garment. From there, let the pad do the rest.

Whether it's breaking up fibrotic tissue, filling concavities, or padding bony prominences, these small SwellSpots® pads offer you and your patients a big relief!

Proven foam technology

Breaks up and softens hardened fibrotic tissue to support skin health.

Versatile shapes & sizes

Wide range of off-the-shelf and custom solutions to manage troublesome areas no matter the location.

Channeling

Designed based on MLD principles of directing fluid along lymphatic pathways.

Reusable pads

Durable construction ensures pads retain their shape between washes.

Slate

- 6-month warranty for off-the-shelf pad styles
1-year warranty for custom pads
- Easy care in washer and dryer

Caresia™

Simplifies and enhances your bandaging protocol.

Caresia™ is an off-the-shelf foam bandage liner designed to be used during the intensive phase of therapy to simplify the multi-layer bandaging process during the daytime, nighttime, and high or low activity.

Off-the-Shelf

Day or Night

High or Low Activity

Available styles

Gauntlet

MCP to Axilla

Wrist to Axilla

Foot

Glove

Thigh

Below Knee

Before CDT

After CDT

Why choose Caresia™?

Caresia™ replaces the underlayers of standard multi-layer bandaging protocol, including the skin protection layer (e.g., stockinette), padding, and focal compression/foam.

With its high stretch fabric, Caresia features great conformity, even around hard-to-manage lobules or with unique presentations.

Simply slide it on and bandage over the top with short-stretch bandages like Rosidal® K to achieve the desired compression profile.

Saves time

Eliminates the underlayers of bandaging. Slide on and apply short-stretch bandaging over top.

Proven foam technology

Breaks up and softens hardened fibrotic tissue to support skin health.

Quick and easy fitting

Only 2–5 measurements needed to select size for each style.

High-stretch fabric

Offers greater range of motion compared to multi-layer bandages.
