

Mayo Clinic COVID-19: Updates for 2021 – Online CME Course

COVID-19: Essential 2021 Updates

Recorded 02/26/2021

Activity Description

This segment discusses how COVID-19 is continuing to evolve in 2021. Topics include the latest infection and hospitalization rates, bio mutations and impacts on infection rates, prevention, including masking and double masking, what being vaccinated means, vaccine hesitancy, disparities within COVID-19 based on economic and racial inequalities, and mental health and resiliency.

Target Audience

Healthcare providers in all specialties who are being impacted by COVID-19, including physicians, research scientists, physician assistants, nurse practitioners, nurses, and caregivers with a particular interest in prevention, treatment, and patient care.

Learning Objectives

Upon conclusion of this program, participants should be able to:

- Share the latest updates on the COVID-19 pandemic in 2021
- Present scenarios reflecting what being vaccinated means
- Describe ideal safety measures for disease prevention
- Discuss disparities with COVID-19 based on economic and racial inequalities
- Discuss the evolution of COVID-19, and its impacts on mental health and resiliency

Utilization of this Mayo Clinic online (enduring materials) course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be in this course. Attendance at any Mayo Clinic course does not indicate or guarantee competence or proficiency in the skills, knowledge or performance of any care or procedure(s) which may be discussed or taught in this course.
