COURSE DESCRIPTION

This course is designed to enhance the skills of both the novice and seasoned educators with tools to train, precept and mentor their learners. The program will include didactic lectures, illustrative cases, and simulation techniques designed to provide a road map description of the most up to date methods to educate the next generation of medical professionals.

COURSE LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Identify the optimum approach to provide effective feedback to the trainees
- Summarize steps to provide effective remediation to struggling learners
- Review the adult learning strategies in medical education
- Recognize the importance of developing cutting edge research and quality improvement programs for trainees
- Utilize simulation techniques to explore clinical teaching
- Recognize the importance of publishing early in your career and QI improvement for trainees
- Identify ways to use social media in education

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

INTENDED AUDIENCE

This course is designed for all educators within the health care setting: Nurses, ARNPs, PAs, Pharmacists and Physicians.
