COURSE DESCRIPTION

Clinical Reviews seeks to update physicians on the latest recommendations involving the medical subspecialties important for the primary care physician through a comprehensive program consisting of lectures, workshops, and panel discussions on topics of general interest in various areas of medicine.

COURSE LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Discuss current diagnostic and therapeutic options for common illnesses and injuries seen in primary care
- Identify new evidence based treatment using the most up to date clinical and scientific information
- Assess heart failure with preserved injection fraction
- Evaluate patients with anemia
- Review developments in anticoagulation
- Manage pain in the inpatient setting

Attendance at this Mayo course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

INTENDED AUDIENCE

This course is a comprehensive program for family physicians, general internists, physician's assistants, nurse practitioners, and registered nurses that practice primary care medicine. The majority of our intended audience practice in outpatient solo or group practices. They have a need for a review course on primary care subjects, while gaining new strategies of care.
