

## ***HMP Enterprises has grand opening for new headquarters in Manchester, Georgia after acquiring Dry Corp & Dry Case***

**Manchester, GA, June 26, 2020** – On Friday, June 26, 2020, HMP Enterprises, Inc., a company that secures strategic acquisition and Original Equipment Manufacturer (OEM) partners to provide growth in Georgia, held a ribbon cutting ceremony to celebrate their new headquarters location in Manchester, Georgia. HMP Enterprises was founded by Bruce Maloy & Paul H Hunt II in 2019 with the goal of bringing world class manufacturing operations back to the state of Georgia.

In January, HMP Enterprises acquired two divisions, Dry Corp & Dry Case. Dry Corp provides waterproof medical products under the brand name DryPro & waterproof electronic covers and gear through their sister company, DryCase. Bruce & Paul saw an amazing opportunity with absorbing these companies under the HMP Enterprises umbrella with the goal to reduce overhead and maximize operating efficiencies, while also growing an existing well-established International product line.

“Paul and I wanted to build a company that brings back manufacturing operations to our home state of Georgia,” said Bruce Maloy, CEO of HMP Enterprises, Inc. “It was also very important to us that we acquire companies that can help improve quality of life and we found that in Dry Pro. The waterproof medical products we produce, help people with casts, Picc Lines, Prosthetics and Ostomy bags do activities as simple as showering and swimming. We heard about Dry Pro for years and loved how each customer had a story on how the Dry Pro products helped them feel like they could continue to live life without the fear of water contamination to their affected areas. We wanted to help expand this company reach and bring this product to as many people as possible. Dry Case was also a company that had a great reputation supplying waterproof gear that helped people take great adventures.”

Paul H. Hunt II, President of HMP Enterprises, Inc, continued, “With the help of our advisors, we will be able to bring over 150 years of Mergers & Acquisition, OEMs and other manufacturing and operation venues to each division. We are excited to open our doors in Manchester, GA, a place that is very special to Bruce & I and where the original HMP was headquartered several years ago. Bruce and I both bring a unique skill set of sales, marketing and innovative leadership that we will apply to Dry Pro & Dry Case. Both these companies work to create products that give people improved quality of life & help them conquer any condition. We look forward to seeing what is on the horizon for each company.”

The new HMP Enterprises is located at 300 Delano Drive in Manchester, GA. Visit [www.hmpenterprisesinc.com](http://www.hmpenterprisesinc.com) to learn more about their efforts.
