COURSE HIGHLIGHTS

This course will provide attendees with contemporary and hot-topic issues in stroke care. Lectures will cover management of acute ischemic stroke, brain hemorrhage, symptomatic and asymptomatic vascular lesions including cerebral aneurysms, and carotid stenosis. The course will also cover the latest diagnostic and therapeutic approaches to stroke. Lectures will be supplemented with highlights of imaging in clinical vascular neurology and group discussions of clinical vignettes. ENLS will be paired with this event as a pre-stroke CME course offering separately.
