## COURSE HIGHLIGHTS

- Topics for clinicians in primary care settings who care for infants, children and adolescents
- Information on breakthroughs in topics common to the pediatric age group
- Topics concerning to parents and primary care clinicians
- Practicing healthcare provider faculty from Mayo Clinic and Sanford Health

## TARGET AUDIENCE

This course is designed for primary care providers, including physicians, physician assistants, nurse practitioners, advance practice nurses, nurses and students who care for infants, children and adolescents.

## LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Incorporate medical information from reviews of common and rarely encountered clinical scenarios into the daily practice of pediatric and adolescent medicine.
- Describe newly developed therapies for the management of rare pediatric diseases, pediatric cancer and lesbian, gay, bisexual and/or transgender medical and psychological needs.
- Implement effective clinical strategies for diagnosing and managing a wide array of challenging problems in clinical practice.
