

2021 Mayo Clinic Humanities in Medicine Symposium
Engaging Across Disciplines: Toward a Practice of Transdisciplinarity
Livestream Program Schedule
September 17, 18, 25, 28, 30 and October 9, 2021
All times listed in CST

Our virtual Symposium schedule departs from the traditional schedule of an in-person conference and is designed to maximize flexibility and avoid Zoom fatigue for participants. We have shortened the length of the days to better accommodate attendees in different time zones, and we have chosen to offer clusters of sessions over a period of 3 weeks. Registrants are encouraged to attend as many sessions as their schedule allows with the assurance that:

- *All conference sessions are included in the registration fee*
- *No pre-registration is necessary for workshops and performances*
- *Recordings of plenary presentations will be available through October 9, 2022*

Workshops

Presented by 2 to 4 facilitators representing a range of disciplines and institutions, workshops will engage participants in an applied practice of health-related humanities with a focus on techniques and skills.

Panel

Designed to examine a central issue or question, 3 to 4 presenters will offer brief, diverse perspectives of 15-20 minutes, followed by 15 minutes for discussion.

Performance

Collaborative original works of music, spoken word, theatre, dance or any other performance based artistic medium will be presented by a minimum of 2 artists.

Reverse Paper

In this format, groups will have 10 minutes to present a brief description of a new, original work-in-progress, idea or a paper with a central research question, followed by 10 minutes to invite creative, spontaneous ideation. Content will not have been previously published or presented.

Networking Sessions

Opportunity to connect with colleagues. Meet here via Zoom or meet off-line on your own schedule.

Date	Category	Presentation Title	Presenter(s)

We extend sincere thanks to our conference sponsors: Mrs. Sissel Cooper Bos and The Irving S. Cooper Institute for Advanced Studies in Medicine and the Humanities for their support of Mayo Clinic and Mr. Paul Lavins, whose generous support of our center in Rochester honors the memory of his wife Dolores, who provides inspiration for all of our work.
