

## Claudia F. Lucchinetti, M.D.

Claudia F. Lucchinetti, M.D., is a neurologist with specialty interest in neuroimmunology and is active in research and education, providing mentorship to residents and fellows. She authors expert content and publishes in high-impact scientific journals. Her research focuses on understanding the mechanisms that drive tissue injury in multiple sclerosis, neuromyelitis optica and other related disorders, with a focus on identifying new therapies.

Dr. Lucchinetti is the recipient of the 2016 John Dystel Award from the National Multiple Sclerosis Society. She is also recognized with the distinction of a named professorship, the Eugene and Marcia Applebaum Professor of Neurosciences.

Dr. Lucchinetti serves as chair of the Department of Neurology.
