# Women's Health Internal Medicine

Phoenix, AZ

The Women's Health Clinic at Mayo Clinic in **Scottsdale, Arizona** is seeking a General Internist with interest and expertise in Women's Health to join our practice.

The Division of Women's Health is seeking a board certified internist with academic and research experience who has an interest and clinical expertise in Women's Health. Candidates should be board-certified internal medicine physicians with demonstrated scholarly activity. **Advanced training or experience in women's health is desirable.**

The multidisciplinary **Women's Health Clinic team** resides within the Department of Medicine and partners with psychology, gynecology, dermatology, hematology/oncology, cardiology and other specialties to provide collaborative, innovative, evidence-based specialty and primary care for women. Team members have the opportunity to rotate into the interdisciplinary breast center and Integrative Medicine clinic.

## Mayo Clinic offers:

- Excellent support from allied health professionals
- Collegial atmosphere
- Outpatient teaching opportunities, interacting with medical students, residents and fellows
- Professional development opportunities to enhance skills in medical education, research, and administration
- Mayo Clinic offers a competitive benefits package which includes generous vacation time, funded CME and relocation assistance.
- Access to consults from world-renowned subspecialists, laboratory and radiology experts
- This position includes an academic appointment with the College of Medicine, Mayo Clinic.

Mayo Clinic is known nationally and internationally for outstanding achievements in patient care, research, and education. Mayo Clinic is an integrated practice, focusing on high quality, compassionate medical care delivered in a multi-specialty academic environment. A commitment to quality patient care and medical education is expected.
