**AMA PRA
CATEGORY 1
6.5**

COURSE OVERVIEW

This one-day course provides attendees with state-of-the-art information on diagnosis and management of inflammatory bowel disease with emphasis on a multidisciplinary approach to patient care. Course faculty includes Mayo Clinic experts from the inflammatory bowel disease clinic, radiology, and colorectal surgery. The course format offers didactic lectures, panel discussions, and Q & A. Active audience participation is strongly encouraged.

LEARNING OBJECTIVES

- Discuss the multidisciplinary management of Crohn's disease and ulcerative colitis
- Recognize appropriate utility of MR and CT for IBD monitoring
- Contrast the differences in risks, benefits and recovery between endoscopic and surgical management of complications of disease
- Cite advantages of integrating radiologic and pathologic resources into the care of patients with ulcerative colitis
- Describe appropriate diagnostic evaluations to access pouch dysfunction and management option

TOPICS AT-A-GLANCE

- Current and Emerging Therapies in IBD
- Interdisciplinary Approach to Management Ulcerative Colitis
- Treat to Target
- Challenging Cases of Pouch Dysfunction
- Interdisciplinary Approach to Diagnosis and Management Of Crohn's Disease
- Hot Topics in IBD

INTENDED AUDIENCE

This course is for physicians, nurses, nurse practitioners, and physician assistants in gastroenterology, surgery, internal medicine, and family medicine.
