Course Description

The course will cover recent advances in minimally invasive and therapeutic endoscopy approaches to gastrointestinal diseases. The program will include didactic lectures from national and international experts and Mayo Clinic faculty, live case demonstrations from the OR and endoscopy suite, and highly informative video cases.

Course Learning Objectives

Upon conclusion of this program, participants should be able to:

- Describe criteria for complete endoscopic resection of early esophagus and colorectal T1 cancers
- Determine which patients may be candidates for neo-adjuvant therapy and minimally invasive pancreatectomy
- Describe new minimally invasive approaches (Lap Heller, POEMS) to treatment of achalasia and spastic esophageal disorders

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

Intended Audience

This course is intended for GI physicians and surgeons, GI and surgical trainees, nurses and allied health employees.

Credit

Mayo Clinic College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
