

3rd Annual ASBMT Regional Conference for NPs, PAs, and Fellows featuring “Best of Tandem”

PHARMACOLOGY CONTENT

Select presentations will contain pharmacology content as noted in the program. Identified presentations represent approximately 8.25 hours of pharmacology content.

Thursday, October 13, 2016	
12:00 p.m.	Registration and Light Lunch
12:45 p.m.	Introductions and Pre-test
1:00 p.m.	Haplo vs Cord vs URD Debate Claudio Brunstein, M.D.
1:45 p.m.	Trends in Donor Cell Source Jeffrey W. Chell, M.D.
2:30 p.m.	Refreshment Break
3:00 p.m. 	Advances in Leukemia Mark R. Litzow, M.D. <ul style="list-style-type: none"> Assess the role of treatment with pediatric-intensive regimens, BMT, monoclonal antibodies tyrosine kinase inhibitors in acute lymphoblastic leukemia Review the role of FLT3 inhibitors and other new agents in the treatment of acute myeloid leukemia Discuss the role of chemoimmunotherapy and new agents in the therapy of chronic lymphocytic leukemia
3:45 p.m. 	Advances in Myeloma Morie A. Gertz, M.D. <ul style="list-style-type: none"> Understand current induction therapies for myeloma Understand current role of stem cell transplant in myeloma Master concepts of post-transplant maintenance therapy
4:30 p.m. 	Polypharmacy and BMT Gabriel T. Bartoo, Pharm.D., R.Ph. <ul style="list-style-type: none"> Review risks of polypharmacy, focusing on adverse effects and drug interactions <ul style="list-style-type: none"> Immunosuppressants Antimicrobial agents BCR-ABL tyrosine kinase inhibitors Supportive care Outline strategies to minimize pill burden Outline strategies to maximize medication adherence
5:15 p.m.	Adjourn
5:30 p.m.-7:30 p.m.	Welcome Reception Cosmos 4 th Floor, Loew's Minneapolis Hotel

Friday, October 14, 2016	
7:30 a.m.	Continental Breakfast
General Session-Best of Tandem	
8:30 a.m. 	Dermatology Complications Julia S. Lehman, M.D. <ul style="list-style-type: none"> To discuss the spectrum of skin findings with GVHD To review other rashes that may occur in the post-BMT period To know how to work up a post-BMT rash To become familiarized with skin-directed therapies
9:15 a.m. 	Palliative Care Jacob J. Strand, M.D. <ul style="list-style-type: none"> Define key concepts of the palliative care philosophy Review benefits of early palliative care integration into patients undergoing hematopoietic stem cell transplants. Employ expanded definitions of palliative care in conversations with your patients & colleagues.
10:00 a.m.	Refreshment Break
10:30 a.m.	CAR T-Cells Saad J. Kenderian, M.B., Ch.B.
Pediatric Breakout	
8:30 a.m.	Post-Transplant Management for Sickle Cell Kimberly Kasow, D.O.
9:15 a.m.	Late Effects after Transplant Lucie M. Turcotte, M.D., M.P.H.
10:00 a.m.	Refreshment Break
10:30 a.m. 	Immunodeficiencies Christopher (Chris) C. Dvorak, M.D. <ul style="list-style-type: none"> Be able to identify which children with SCID benefit from undergoing conditioning with Busulfan (or other agents) Be able to identify optimal GVHD prophylaxis strategies for children with SCID undergoing unrelated donor HCT Understand what challenges remain in treating children with SCID
General Session-Best of Tandem	
11:15 a.m.	Future Trends in Blood and Marrow Transplant Sergio A. Giralt, M.D.
12:00 p.m.	Lunch The Best of Tandem 2016 Effie Wang Petersdorf, M.D.

1:30 p.m. 	BOS Greg A. Yanik, M.D. Primary Objectives: To understand: <ul style="list-style-type: none"> • The diagnostic features of BOS, including spirometry, and radiographic signs. • The clinical features, risk factors, and potential treatment options for BOS. • How to distinguish BOS from IPS and BOOP (COP) • Potential mechanisms underlying the syndrome.
2:15 p.m.	Checkpoint Blockade Saad J. Kenderian, M.B., Ch.B.
3:00 p.m. 	Treatment of Post-Transplant Viral Infections Catherine (Cate) Zomok, P.A.-C. <ul style="list-style-type: none"> • Identify the common viruses encountered post-transplant • Formulate initial approaches to diagnosis and treatment of post transplant viral infections. • Identify proper ways to prevent viral infections. • List common adverse effects of antivirals. • Associate viruses based on clinical presentation.
3:45 p.m.	Adjourn

Saturday, October 15, 2016	
7:30 a.m.	Continental Breakfast Roundtable: Burnout in HCT Providers Linda J. Burns, M.D.
8:30 a.m.	BMT Emergencies Juan Manuel Pinelli, P.A.-C., MMSc
9:30 a.m.	Psychological Considerations in the Treatment of BMT Patients and Survivors Eleshia J. Morrison, PhD, L.P.
10:00 a.m.	Refreshment Break
10:30 a.m. 	Chronic GVHD Linda J. Burns, M.D. <ul style="list-style-type: none"> • List risk factors for cGHVD • Describe the steps in the pathogenesis of cGHVD • Detail the NIH subclassification, diagnosis and scoring/grading systems • Explain best practices in assessing patients • Recognize importance of clinical trials to improve outcomes
11:15 a.m. 	Transplant Associated Thrombotic Microangiopathy Mrinal S. Patnaik, M.B.B.S. <ul style="list-style-type: none"> • General overview of Thrombosis and Hemostasis. • Diagnosis & management of transplant associated - thrombotic microangiopathies (TA-TMA). • Unique bleeding and clotting scenarios associated with stem cell transplantation.
12:00 p.m.	Lunch
1:00 p.m. 	Amyloid/POEMS Angela Dispenzieri, M.D. <ul style="list-style-type: none"> • Understand how to diagnose AL amyloidosis • Recognize critical testing requirements for diagnosis, prognosis, and therapy • Define what POEMS syndrome is and the benefits and risks of ASCT as therapy
1:45 p.m.	BMT Nutrition 101 Joy R. Heimgartner, MS, RDN, CSO, LD
2:30 p.m.	Course Wrap Up and Post-Test
2:40 p.m.	Adjourn
