JANUARY 27–28, 2018**

COURSE HIGHLIGHTS

Join experts in Scottsdale, AZ to discuss the latest treatment options for shoulder and elbow arthroplasty, arthroscopy, fracture and reconstruction.

This course provides relevant information that can be applied to your daily practice, including:

- Best current practices in diagnosis, treatment, and new technology
- Optimizing surgical techniques
- Avoiding surgical complications for better outcomes

TARGET AUDIENCE

Orthopedic surgeons, nurses, physician assistants, and nurse practitioners.

LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Describe the different surgical approaches for the treatment of rotator cuff pathology from partial thickness to massive rotator cuff tears
- Recognize treatment options for the treatment of shoulder arthritis from arthroscopy to arthroplasty
- Recognize treatment options for elbow fractures of the coronoid, radial head, olecranon, and distal humerus

COURSE DIRECTORS

Diane L. Dahm, M.D.
John W. Sperling, M.D.
Scott P. Steinmann, M.D.
