COURSE OVERVIEW

A one-day program that provides current information on the care of the elderly, including clinical evaluation, management strategies and innovative practice models to family practitioners, internists, general practitioners, advanced nurse practitioners and physician assistants.

COURSE TOPICS INCLUDE

- Parkinson's Disease
- Total Joint Replacement
- Safe De-prescribing
- Wound Care Management
- Heart Failure Management
- Management of Chronic Non-cancer Pain
- Literature Updates

LEARNING OBJECTIVES

- Manage Parkinson's Disease and its sequelae
- Reduce unnecessary/non-beneficial polypharmacy in older patients
- Describe optimal management of chronic pain, balancing risks and benefits of treatment in the elderly
- Develop a pragmatic approach to heart failure management in the elderly
- Summarize the most salient literature updates in geriatric research from the past year

INTENDED AUDIENCE

This course is for primary care physicians including family practitioners, internists, general practitioners, advanced nurse practitioners, physician assistants, and those who care for elderly patients in the community, assisted living, and nursing home settings.

COURSE DIRECTORS

Christina Chen, M.D.

Brandon Verdoorn, M.D.
