

Mayo Clinic Ventilation Conference: COVID-19 – The Final Take
Total Duration: 3 hours 45 mins (3 pre-recorded round tables)

“COVID-19 associated ARDS [i.e. ‘CARDS’]: What’s New and What’s True?”

- **COVID-19 Associated ARDS Phenotypes: Leading or Misleading?** Luciano Gattinoni, M.D. (15-20 minutes)
- **Happy Hypoxemia in COVID-19 Infection: True or False?** Richard A. Oeckler, M.D., Ph.D. (15-20 minutes)
- **Excessive Respiratory Drive in COVID-19: How to monitor and treat?** Luigi Camporota, MD, PhD (15-20 minutes)

Discussion: Moderators: June Mee Chae, M.D., Gustavo A. Cortes Puentes, M.D. (15 minutes)

“Non-invasive Mechanical Ventilator Support and Timing of Intubation in the era of COVID-19”

- **Infection Mitigation Strategies in the Use of Ventilatory Support During COVID-19 Pandemic** Steven R. Holets, R.R.T., L.R.T. (15-20 minutes)
- **Non-invasive Ventilatory Support for Patients with Respiratory Failure Secondary to COVID-19 Infection** Gustavo A. Cortes Puentes, M.D. (15-20 minutes)
- **Patient Self-Inflicted Lung Injury (PSILI): Timing of Intubation** Laurent J. Brochard, M.D. (15-20 minutes)

Discussion: Moderators: Bhargavi Gali, M.D., Richard A. Oeckler, M.D., Ph.D. (15 minutes)

“Dealing with CARDS: Invasive Mechanical Ventilation and Extracorporeal Life Support”

- **COVID-19 Associated ARDS: Is a Different Mechanical Ventilation Approach Necessary?** John J. Marini, MD (15-20 minutes)
- **A Pragmatic Approach to Lung Recruitability in COVID-19-associated ARDS** Lise Piquilloud, M.D. (15-20 minutes)
- **Extracorporeal Membrane Oxygenation Support in COVID-19: Allocation and Nuances in Management** Bhargavi Gali, M.D. (15-20 minutes)

Discussion: Moderators: June Mee Chae, M.D., Steven R. Holets, R.R.T., L.R.T. (15 minutes)
