COURSE DESCRIPTION

The Mayo Clinic Southeastern Clinical Update in Nephrology and Kidney Transplantation is a two-day symposium designed to update participants on a range of nephrology topics relevant to current medical practice. Through a combination of lectures, literature review, and case-based presentations, this symposium will deliver up-to-date and cutting edge information that can be directly integrated into clinical practice.

COURSE LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- List new practice changing developments in nephrology, hypertension and transplantation
- Summarize the current clinical practice guidelines for nephrology
- Recognize the complex clinical presentations of patients with renal disorders
- Discuss current therapies for renal disorders
- Discuss recent advances and changes in clinical practice of nephrology and hypertension
- Describe treatment and pathophysiological relationships of renal diseases
- Discuss current challenges in the kidney transplant field
- Summarize the current status of pancreas transplantation
- Discuss recent legislative changes and career challenges facing allied health staff

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

INTENDED AUDIENCE

This course is intended for the all members of the nephrology community and will be of interest to nephrologists, nephrology trainees, nurse practitioners, physician assistants, internists, primary care physicians and other specialists who participate in the care of patients with kidney disorders and kidney and/or pancreas transplants.
