## #3: Presentation(s) Content: Faculty Responsibility

- The Presenter warrants that nothing in their presentation is libelous or will infringe the rights of any third party. Presenter also warrants that for any third party materials incorporated into their presentation, they have obtained all necessary permission from the copyright owner of such material. Upon request Presenter agrees to furnish copies of said permission(s) to the Mayo School of Continuous Professional Development. The Presenter is responsible for all fees, royalties, and other charges for the use of such materials. The Presenter, if a non-Mayo Clinic or MCHS physician shall indemnify Mayo Clinic for all damages, costs and expenses, including attorneys' fees, incurred by Mayo Clinic as a result of a violation of this paragraph.
  - CME must give a balanced view of therapeutic options. Use of generic drug names contributes to impartiality. Also, if your CME educational material or content includes trade names then trade names from several companies should be used where available, not just trade names from a single company.
- ☒ I agree to the statements in #3.

I attest that the information is accurate. Please accept this as my signature

## Commercial Interest

The ACCME defines a "commercial interest" as any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

## Financial Relationship

Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse/partner.

## Relevant Financial Relationship

ACCME focuses on financial relationships with commercial interests in the 12-month period preceding the time that the individual is being asked to assume a role controlling content of the CME activity. ACCME has not set a minimal dollar amount for relationships to be significant. Inherent in any amount is the incentive to maintain or increase the value of the relationship. The ACCME defines "relevant" financial relationships as financial relationships in any amount occurring within the past 12 months that create a conflict of interest. After you submit the completed disclosure form, it is your responsibility to inform Mayo School of CPD if the status of your financial relationship changes prior to your presentation.

## Off-Label Use and/or Investigational Uses - FDA Statement

Some drugs or medical devices demonstrated have not been cleared by the FDA or have been cleared by the FDA for specific purposes only. The FDA has stated that it is the responsibility of the physician to determine the FDA clearance status of each drug or medical device he or she wishes to use in clinical practice.

"Off-label" uses of a drug or medical device may be described in CME activities so long as the "off-label" use of the drug or medical device is also specifically disclosed (i.e. it must be disclosed that the FDA has not cleared the drug or device for the described purpose). Any drug or medical device is being used "off-label" if the described use is not set forth on the product's approval label.

Mayo Clinic College of Medicine complies with the requirements of the National Physician Payment Transparency Program OPEN PAYMENTS (Physician Payments Sunshine Act).
