**Poster and Workshop Abstracts**

## Poster Abstracts

**Overview:** The second afternoon of the three-day conference will feature a poster session whose purpose is to showcase participants' work and stimulate dialogue among conference attendees. Posters can feature data-driven original research on any aspect of suicidology, describe innovative clinical programs or projects related to the assessment and treatment of suicidal patients, or explicate training methods used to increase clinician effectiveness in evaluating such patients. Every effort will be made to include as many posters as possible, based on available space.

The finished poster size can be no larger than 4'x4', to fit on the provided display space. All course attendees will be invited to this reception event, and all approved presenters must attend the poster reception on Friday, May 31, 2019 from 4:00-5:30; a three minute oral presentation is required.

**Abstract Eligibility:** In support of inclusiveness, abstracts are not limited to first-time presentations. Abstracts that have been presented at previous meetings are eligible for consideration, as are abstracts from papers that have already been published.

**Number of Entries:** A participant may be the primary author on no more than two abstracts; however, he or she may be a contributing author on any number of abstracts.

**Requirements:** Please submit abstracts (300-500 Words), 2-3 objectives per poster, abstract name, institution, address, and contact information.

**Submission:** Submissions are due by **April 15, 2019.** Paid conference registration is required for accepted poster and workshop abstracts. After you register for the course, you will receive a web link to submit your abstract.

**Notification of Results:** Authors will be notified of acceptance by May 1, 2019.

## Workshop Abstracts

**Overview:** Workshops will be held Thursday and Friday, May 30-31.

**Number of Entries:** A limited number of proposals for 75-minute workshops will be accepted.

**Requirements:** Please submit an abstract of 500 words or less, 2-3 objectives per workshop, abstract name, institution, address, and contact information.

**Submission:** Submissions are due by **April 15, 2019.** Paid conference registration is required for accepted poster and workshop abstracts. After you register for the course, you will receive a web link to submit your abstract.

**Notification of Results:** Presenters will be notified of acceptance by May 1, 2019.
