

The Best Kind of Treatment for Osteoarthritis Knee Pain?

The Kind Patients
Can Afford.

SUPARTZ FX
sodium hyaluronate

Affordable Osteoarthritis Knee Pain Relief

High prices or costly copays can act as barriers to treatment of knee pain caused by osteoarthritis.

SUPARTZ FX is a safe and effective hyaluronic acid treatment for knee pain caused by mild to moderate osteoarthritis (OA).^{1,2} More than 410 million injections worldwide serve as a testament to the continued clinical utilization of SUPARTZ FX to treat OA knee pain. SUPARTZ FX is a low cost, safe and effective treatment option.³

Relief from OA knee pain
and stiffness^{1,2}

Low Acquisition Costs

Low acquisition costs make SUPARTZ FX appealing to your practice and your patients.

For your practice:

- Reduce overhead
- Keep inventory costs down
- Lower your financial risk

Low costs also provide the flexibility to offer a self-pay (cash) option from your practice, which can be attractive to patients without adequate insurance.

LOW ACQUISITION COST

Support for those who need it most

Low Patient Copays

Copays for SUPARTZ FX are typically less than \$20 per injection.

Medicare coinsurance responsibilities*
per injection (Q3, 2019)

HA TREATMENT	COINSURANCE PER SYRINGE ⁴
SUPARTZ FX	\$14.97

LOW COPAY

SUPARTZ FX copay
is generally

**4 times less
expensive** than a
comparator flexible
dosing HA injection.[†]

*Coinsurance is 20% of CMS allowable rate. Coinsurance costs change quarterly and may vary.

†Comparison based on a Medicare patient's co-insurance responsibility for GenVisc® 850. This cost comparison applies only to product costs and not to procedure or office visit costs.

SUPARTZ FX and GenVisc 850 are approved for 3-5 injections per treatment

SUPARTZ FX billed under J7321 is shared with Hyalgan® and Visco-3®.

Summary of Indications for Use: SUPARTZ FX is indicated for treatment of pain in osteoarthritis (OA) of the knee in patients who have failed to respond adequately to conservative nonpharmacologic therapy and simple analgesics, e.g., acetaminophen.

You should not use SUPARTZ FX if you have infections or skin diseases at the injection site or allergies to poultry products. SUPARTZ FX is not approved for pregnant or nursing women, or children. Risks can include general knee pain, warmth and redness or pain at the injection site.

Full prescribing information can be found in product labeling, at www.SupartzFX.com or by contacting Customer Service at 1-800-836-4080.
