

REMINDER: ALL TRAINEE POSTERS ARE DISPLAYED IN THE MARRIOTT HOTEL BALLROOM

Poster Number	Submitter First Name	Submitter Last Name	Title
1	Christopher	Aakre	Automating SOFA score calculation under the new SEPSIS-3 definition
1	Saira	Ajmal	Improving Hepatitis C Virus Screening Rates in Primary Care
2	Ali	Alsaad	A Multidisciplinary Approach to Improve Inter-Hospital Transfer Process and Medical Record Transmission: An Academic Tertiary Center Experience
2	Sayed Obaidullah	Aseem	Improving Medication Reconciliation in Primary Care by Obtaining Pharmacy Records of Prescription Refills
3	Solomon	Azouz	Barriers to Recycling in the Operating Room: A Survey of Operating Room Staff
3	Kareem	Bannis	Clostridium difficile: From infection to prevention in skilled nursing facilities
4	Allan	Bates	Medication Reconciliation– An Evaluation of the Accuracy of Medication Lists of Recently Discharged Patients
4	Jessica	Brunner	The A, B, C, D, E's of Opioid Prescribing
5	Michael	Christiansen	Safety Checklist to Minimize Complications from Lumbar Puncture
5	Jed	Cowdell	On Time, Every Time. A Simple Approach to Improving Patient Readiness at Their Scheduled Appointment Time
6	Lisa	Daniels	Prevention of unrecognized hyperkalemia in adult patients at Mayo Clinic Rochester
6	Lisa	Daniels	Improving awareness and management of post intensive care syndrome (PICS) in the medical and mixed medical/surgical intensive care units
7	Christopher	DeStephano	Improving Discharge Readiness Following Minimally Invasive Hysterectomy
7	Stephen	English	Pre-Arrival Notification for Acute Ischemic Stroke: Streamlining Systems to Improve Care Delivery
8	Jennifer	Fang	Improving the Quality of Neonatal Telemedicine Consults
8	Claire	Flanagan	Streamlining the Processes of Pregnancy Screening Prior to Office and Outpatient Gynecologic Procedures
9	Xavier	Fonseca Fuentes	Delirium in the Medical Intensive Care Unit
9	Eric	Funk	My Visit Board: Improving patient understanding of Emergency Department care
10	Anthony	Furlano	Improving Opioid Prescribing Practices in a Family Practice Residency Clinic: A Team Approach
10	Nidhi	Gupta	Improved frequency of waist-circumference measurement and utilization of waist-to-height ratio in cardiometabolic risk counselling among children: A Quality Improvement Project

11	Scott	Helgeson	Implementation of a new guideline and educational sessions to reduce low-value continuous pulse oximetry among hospitalized patients
12	Michelle	Holman	Effect of Pregnancy Reasonably Excluded Guide on Pregnancy Testing in Outpatient Gynecologic Surgery
12	Cory	Ingram	Primary Palliative Care Process eLearning Module
13	Amrit	Kamboj	MedCheck™: A Novel Software Algorithm that Improves Patient Understanding of Medication Side-Effects
13	Dominder	Kaur	Improving Nutritional Status in Newly Diagnosed Pediatric Oncology Patients at Mayo Clinic: Aim for “OSCAR”
14	Andrea	Leep Hunderfund	Improving the value of cerebrospinal fluid polymerase-chain reaction and serologic testing for West Nile Virus: a quality improvement project
14	Debbie	Martin	PulseCheck Ordering System for Laceration Repair
15	Aarti	Narayan	Improving awareness of the Massive Transfusion Protocol amongst providers in the intensive care units
15	Kayla	Nixon	Toward Zero SSIs: A Quality Improvement Initiative to Eliminate Surgical Site Infections in Gynecologic Surgery
16	Matthew	Nolan	MeRLin (Medical Record timeLine): Optimizing the Display of Longitudinal Medical Record Data to Facilitate Clinical Chart Review
16	Andrew	Norgan	Implementation of a software application for pre-surgical and intraoperative review of frozen section surgical pathology cases
17	Christine	Oh	Cost Analysis of Enhanced Recovery after Surgery in Microvascular Breast Reconstruction
17	Govind	Pandompatam	Quality Improvement Project: Integration of a Point-of-Care Ultrasound Examination into the Rapid Response System
18	Mark	Parkulo	Medication Reconciliation: An Evaluation of the Accuracy of Medication Lists of Recently Discharged Patients
18	Juliana	Perez Botero	“PICC Wisely” Reduction of Peripherally Inserted Central Line Placement in Patients Receiving High Dose Methotrexate
19	Kalysa	Porter	INTRODUCING CATEGORICAL ANESTHESIOLOGY RESIDENTS TO RESEARCH—CREATING A STANDARD PROCESS TO INCREASE EFFICIENCY
19	Joe	Poterucha	Implementation of Extracorporeal Membrane Oxygenation Protocol for Cardiac and Respiratory Failure
20	Santiago	Romero-Brufau	Bedside Patient Rescue automatic alerting system reduces time to therapy in cases of inpatient acute deterioration.
20	Sadia	Sayeed	Expanding Mayo Medical Laboratory’s PathWays (an online case of the week) to improve pathology education and outreach

21	Rong	Shen	Prevention of Premature Reporting of Intra-operative Frozen Result
21	Rizwan	Siwani	An Observational Study of Clinical Application Disruptions in an Electronic Health Record
22	Meera	Sridharan	Oral Capecitabine in Chemoradiation Therapy for Rectal Cancer: Identifying Frequency and Impact of Pharmaceutical Delays
22	Mark	Waddle	Quality Assessment of the Timeliness of Cancer Care: A Study of Delays in Radiotherapy Start Dates
23	Sumer	Wallace	Reducing blood transfusion rates in gynecologic oncology patients through application of bundled interventions
23	Michael	Wang	Utilization of a Dermatitis Action Plan in Dermatology
24	Ashley	Wentworth	Cutaneous Biopsy Site Suture Removal in Hospital Patients
24	Dana	Amiraian	Potentially Clinically Significant Findings Detected Incidentally on CT Colonography
25	Ewa	Bieber	Extended Length of Stay: Evaluation of Cardiovascular Risk in Behavioral Health Patients
25	Mohamad	Bydon	The Impact of Spine Disease, Relative to Cranial Disease, on Perception of Health and Care Experience
26	Mohamad	Bydon	Health Care Disparities in Traumatic Brain Injury: The Effect of Insurance on Severity of Presentation
26	Santiago	Romero-Brufau	Nursing worry factor as a predictor of inpatient physiological deterioration.
27	Michael	Ruff	Investigating the utility of distraction aprons for inpatients requiring individual nursing assignment care: a prospective randomized controlled pilot study
27	Jennifer	Schmitt	Designing, Implementing, and Evaluating a Clinical Decision Tree Algorithm for Optimal Route of Benign Hysterectomy
28	Andrew	Tseng	The Impact of Rapid Blood Culture Identification in Gram Positive and Gram Negative Bloodstream Infection on Antimicrobial Therapy
28	Sumer	Wallace	Surgical approach and patient factors impact on Hospital Consumer Assessment of Healthcare Providers and Systems survey scoring in Gynecologic Surgery
