## ABOUT THE COURSE

The 3rd Annual Mayo Clinic Thyroid and Parathyroid Disorders Course 2022 is a three-day CME course offering a comprehensive review of diagnostic techniques and medical and surgical management of thyroid and parathyroid disorders. Topics of discussion include the assessment of benign thyroid diseases as well as pre- and postoperative management of thyroid cancer and parathyroid disorders. Discussions include review of cutting-edge imaging modalities and diagnostic methods such as molecular testing for evaluation of thyroid nodules as well as therapeutic options for the management of benign and malignant thyroid and parathyroid conditions. This course consists of a combination of lectures and panel discussions on diagnostic and therapeutic options for management of challenging parathyroid and thyroid cases, as well as roundtable small group discussions with various experienced speakers.

## INTENDED AUDIENCE

The course is designed for endocrinologists, endocrine surgeons, head and neck surgeons, primary care physicians, nurse practitioners, physician assistants, and other providers who care for patients with thyroid and parathyroid disorders.

## ABSTRACT SESSION

Presentations of original research and challenging cases related to the field of diagnostic techniques and medical and surgical management of thyroid and parathyroid disorders will take place at this symposium. Please visit [ce.mayo.edu/thyroid2022](http://ce.mayo.edu/thyroid2022) for more information.

## FACULTY

### Course Directors

Ejigayehu G. Abate, M.D.

Victor Bernet, M.D.

John D. Casler, M.D.

## LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Review parathyroid and thyroid (benign and malignant) disorders including best practices
- Identify indications for parathyroid surgery and medical management of parathyroid diseases
- Discuss the role and accuracy of parathyroid imaging in detection of parathyroid lesions and new promising imaging modalities
- Describe diagnosis and management of parathyroid diseases in various complex conditions such as chronic kidney disease
- Become familiar with recent advances in the treatment of patients with thyroid cancer
- Recognize the role of molecular testing for the diagnostic evaluation of thyroid nodules, diagnostic criteria and the management and follow up of this diagnosis
- Explain NIFTP diagnostic criteria, management, and follow up. Examine recent advances and changes in clinical practice

## ABOUT THE LOCATION

### Hyatt Regency Grand Cypress

1 Grand Cypress Blvd.  
Orlando, FL 32836

A block of rooms has been reserved for attendees at a special rate of \$199 per night plus applicable taxes and fees. Reservations must be made before the room block sells out or before the expiration date of October 19, 2022, whichever comes first. Rooms are limited, early booking is encouraged.

## PROGRAM AT-A-GLANCE

- Thyroid Nodules: The Latest and Greatest in Diagnosis and Management
- Cases: Thyroid Functional Tests (TFTs), Goiters and Thyroid Nodules
- Management of Thyroid Dysfunction During Pregnancy
- Interpretation and Management of Unusual Thyroid Functional Test (TST) Patterns
- The Surgical and Non-Surgical Management of Recurrent Thyroid Cancer
- The Non-Surgical Management of Recurrent Thyroid Cancer
- Medullary Thyroid Cancer: Update on Management Options
- Primary Hyperparathyroidism 2022: Diagnosis and Treatment – Guideline Update
- Parathyroid Localization Imaging Techniques
- Hypoparathyroidism 2022 Management and Updated Guideline
- Challenging Calcium-based Case Discussion
- Management of Nephrolithiasis from Nephrologist Perspective

## COURSE REGISTRATION

	Before 10/12/22	After 10/12/22
Physician, Scientist	\$750	\$825
Resident, Fellow, Nurse, PA, Allied Health, Retiree	\$675	\$750
