Updates in Family Medicine Online Course

Activity Description

This Mayo Clinic and Kaiser Permanente collaboration offers a comprehensive family medicine update course designed for practicing primary care and family medicine providers. This course highlights the latest recommendations involving medical specialties important to the primary care setting that can be applied immediately into practice.

Target Audience

This course is designed for family physicians, general internists, physician assistants, nurse practitioners, and nurses in primary care and family practice.

Learning Objectives

Upon conclusion of this activity, participants should be able to:

- Formulate a management approach for a patient with chest pain
- Assess the appropriate immunizations administered to children and adults for protection against preventable, infectious diseases
- Formulate a management approach for a patient with colon polyps
- Measure how to manage a patient with pulmonary nodules
- Analyze ways to integrate skills for point-of-care ultrasound into your practice
- Interpret appropriate treatments for common acute ENT injuries
- Interpret outpatient procedures including musculoskeletal injections

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.
