

# Dermatology for the Generalist Online Course

## Activity Description

Mayo Clinic offers a comprehensive, fully virtual online CME course led by nationally recognized dermatology experts. Eleven engaging modules address skin exams; skin cancer; acneiform and inflammatory disorders; infections; hair, nails, and mucous membranes; cosmetic dermatology; skin of color; pediatric dermatology; systemic disease; medications; and environmental effects on skin.

## Target Audience

This course is relevant to a broad range of non-dermatologists and primary care providers, including general practitioners, internists, physicians, residents, physician assistants, nurse practitioners, APRNs and registered nurses.

## Learning Objectives

Upon conclusion of this activity, participants should be able to:

- Recognize common dermatologic disorders and diseases.
- Identify appropriate methods of treatment and medications for commonly observed dermatologic conditions.
- Recognize when further consultation is necessary through external referrals.

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.
