# Welcome

**Dear Exhibitors,**

On behalf of Mayo Clinic General Internal Medicine, we are pleased to invite you to participate in A Systematic Approach to Medically Unexplained Symptoms that will take place August 17-20, 2022, at The Ritz-Carlton, Half Moon Bay, California. This course is intended for physicians, nurse practitioners, and physician assistants who practice in or have a special interest in treating medically complex patients.

The purpose of the meeting is to provide a diagnostic framework/template for medically unexplained conditions with shared etiologies and presentations. Subsequently, more specific management strategies for each condition will be provided, along with various clinical pearls. The program will cover various medically unexplained conditions seen throughout the scope of internal medicine, selecting from a variety of pertinent general and subspecialty-derived conditions. Expert faculty will present evidence and case-based clinical approaches.

We have 25 expert faculty members presenting on topics that are highly relevant to the practitioner. The topics have been carefully selected to attract a wide range of attendees from sub-specialties within internal medicine. We are anticipating an audience of approximately 150 live attendees and offering livestream option for additional attendees.

To view the entire program and additional information please go to [ce.mayo.edu/medicallyunexplained2022](https://ce.mayo.edu/medicallyunexplained2022)

We are offering exhibit space in a virtual platform and have limited in-person space available. To reserve your spot, please complete the online Letter of Agreement, submit your details for the virtual exhibit hall, and pay the exhibit fee in the amount of \$2,000.
