COURSE HIGHLIGHTS

This entire program is rich in pearls so practitioners leave with new knowledge and tools for their practice. Advances in vaccines, travel guidance, therapeutics for common infections, HIV, STDs and TB are covered. Also, emerging diagnostic tests and how to best use them in clinical practice are discussed. Additional topics discussed include:

- The latest updates on coccidioidomycosis (valley fever)
- An essential review on antimicrobial resistance and antibiotic choices for common infections
- An update on long COVID and emerging research
- A state-of-the-art talk on the latest emerging infections and their recognition
- A review of the importance of health equity in managing infectious diseases

CANCELLATION POLICY

Please visit ce.mayo.edu/cancellation for more information.

Accreditation Statement

In support of improving patient care, Mayo Clinic College of Medicine and Science is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Statement(s)

AMA Mayo Clinic College of Medicine and Science designates this other activity (live and livestream) for a maximum of 13.0 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ANCC Mayo Clinic College of Medicine and Science designates this activity for a maximum of 13.0 ANCC contact hours. Nurses should claim only the credit commensurate with the extent of their participation in the activity.

AAFP Application for CME credit has been filed with the American Academy of Family Physicians. **Determination of credit is pending.**

Other Healthcare Professionals

A record of attendance will be provided to other healthcare professionals for requesting credits in accordance with state nursing boards, specialty societies, or other professional associations.

LEARNING OBJECTIVES

Upon completion of this program, participants should be able to:

- Implement new strategies for treatment of common infections in an era of resistance
- Recognize the role for new vaccines to prevent illness and morbidity
- Recognize the role of private-public health interactions to combat emerging health threats
- Translate new information on the prevention and treatment of sexually transmitted and associated diseases in adults
- Describe the pathways of care for long COVID

TARGET AUDIENCE

Physicians and advanced practice providers (NPs, PAs, PharmDs) engaged in family medicine, hospital medicine, internal medicine, emergency medicine, urgent care, women's health, general pediatrics, geriatrics, and anyone with interest in updating their knowledge of primary care management of infectious diseases and coccidioidomycosis.
