

Pleasure Prescribed.

Closing The Pleasure Gap.

Across demographics, women are not climaxing at the same rate as their male counterparts. Cerē is pursuing an end to the pleasure gap, prioritizing sexual wellness in every picture of health.

Innovating Sexual Wellness.

Our physician-backed products are helping people find and reach their most pleasurable parts, eradicate sexual shame, and put an end to orgasm inequity.

Founded And Created By A Physician.

Dr. Amir Marashi is a board-certified OB/GYN, author, and founder of Cerē. Dr. Marashi has over twenty years of experience in the medical field, and was the first doctor in the U.S. to host an official cosmetic gynecology rotation for OB/GYN residency training.

Designed In The Shape of You.

All of our products are designed with your anatomy in mind. In honor of the only organ dedicated solely to pleasure, we created the first-ever vibrator based on the clitoris.
