Optum

Your vision for health care starts with us

Transforming health care nationally by providing clinician-led care locally

A countrywide collaboration led by clinicians with a shared vision

Grounded in Primary Care

Connecting the country to better health starts with effective and accessible primary care. Your leadership, expertise and insight as a clinician are essential in helping us achieve the Quadruple Aim of high quality, high value services as well as outstanding patient and provider experiences.

Supported by Urgent Care

Our urgent care and walk-in locations are staffed by highly trained physicians, nurse practitioners and physician assistants. We offer a wide range of care that's readily available in patient-centric medical centers, allowing you to deliver quality care and an excellent patient experience at a lower cost.

Enhanced by Specialty and Surgical Care

Our primary care delivery is enhanced by a robust offering in specialty and surgical care. We're committed to making health care more personalized, tailoring the care experience to each patient. We deliver outpatient surgeries in partnership with specialists, health plans and health systems in a network of ambulatory surgical centers and hospitals through Surgical Care Affiliates (SCA) as well as non-SCA markets.
