From Data to Decisions: The Pharmacist's Role in the Age of AI

Session Date: 04/22/2025

Session Time: 11:00 – 11:45 AM (CST)

Target Audience

This continuing education (CE) session was planned to meet the needs of professional staff who deal with the selection and monitoring of medication(s) as part of their patient care duties, including pharmacists, RNs, APRNs, PAs, MDs.

Activity Overview

As healthcare continues to evolve, the use of new technologies such as artificial intelligence (AI) has become more commonplace among various clinical disciplines. The use of these AI technologies has been utilized across multiple clinical specialties in different capacities and continues to be integrated in new ways into the practice models of healthcare professionals. The rapid evolution of healthcare AI comes with unique regulatory and ethical considerations from various levels of the legislative framework. Due to the accelerated development of AI and its growing role in healthcare practice, each department within the larger organization should evaluate where AI can be implemented to increase efficiency and streamline workflow. This presentation will examine the current and emerging applications of AI in healthcare, discuss the fluctuating regulatory and legislative landscape of AI, and explore potential implementation scenarios of AI in clinical pharmacy practice.

Learning Objectives

At the conclusion of this knowledge-based CE session, participants should be able to:

- 1. Review the current and emerging applications of artificial intelligence in healthcare
- 2. Examine the legislative landscape of AI within healthcare for compliance and ethics
- 3. Evaluate the potential impact of AI on future clinical pharmacy practice models

Faculty Information

Damon Alvarez, PharmD, MBA PGY2 HSPAL Pharmacy Resident Mayo Clinic Hospital - Rochester, MN

Damon received a Doctor of Pharmacy and a Master of Business Administration from the University of New Mexico and is a current PGY2 Health System Pharmacy Administration and Leadership resident at Mayo Clinic Hospital – Rochester. His interests include clinical and operational leadership, quality improvement, and policy.
