

Using VoiceThread to Attend a Virtual Poster Session

What is VoiceThread?

VoiceThread is an interactive collaboration tool used to share content online. For the *2025 Mayo Clinic Enterprise Quality Conference*, you can provide comments, questions, or feedback on poster presentations. Presenters, as well as other conference attendees, can respond to your comments, creating a virtual dialogue within VoiceThread.

Set Up Your VoiceThread Account

If you've never used VoiceThread before and need to create a new account:

- Go to <https://voicethread.com>
- Click **Register** at the top-right corner
- Enter your information into the fields and create a password
- Click **Register** to finish

If you have created a VoiceThread account for use at another conference or event, you can use your existing VoiceThread account to participate in the *2025 Mayo Clinic Enterprise Quality Conference* virtual poster session VoiceThread group.

When signing-in with an existing account, use the “**Sign-in with email**” option, do not use the “Sign-in via Institution” or other sign-in options.

Join the 2025 Mayo Clinic Enterprise Quality Conference Group

Once you have an account, you are ready to join the group.

1. To join the group, **you must first be signed-in to VoiceThread** in your web browser. Use the “**Sign-in with email**” option, do not use the “Sign-in via Institution” or other sign-in options.
 2. Leave the webpage open, return to this document, and click this link:

 3. Click **Join & Go to Group**
-

Viewing and Adding Comments

Once in the group, you will see a collection of posters. Click any poster you'd like to view, and it will open. If there is a specific poster you are interested in, you can search for the title in the top search bar.

Once you click a poster, on the left side of the screen, you'll see a list of comments. Comments appear as boxes containing either the initials of the commenter or the commenter's image.

Poster presenters may have recorded audio or video clips to accompany their presentations. The first comment on each slide should be the presenter's narration; click the box to hear what the presenter has recorded.

To provide comments, click the + bubble at the bottom of the screen. A half-circle menu will pop-up which allows you to:

- Write a text comment
 - Record an audio message using either your phone or your computer microphone
 - Capture a video comment using your webcam and computer microphone
 - Upload a pre-recorded audio or video file
