

Exhibitor & Sponsorship Prospectus

Clinical Updates in Allergy and Immunology 2026
July 30 - August 2, 2026

Greetings,

On behalf of course directors Rohit Divekar, M.B.B.S., Ph.D., Miguel Park, M.D., and Gerald Volcheck, M.D., we hope you will consider an exhibit opportunity at the upcoming **Clinical Updates in Allergy and Immunology 2026** course which will be held **July 30 - August 2, 2026** at The Ritz-Carlton, Laguna Niguel, Dana Point, California. The course is offered live with a livestream enrollment option, and we expect around 150 attendees. This course is designed for allergists, internists, family medicine physicians, and pediatricians. Nurses, physician assistants, nurse practitioners, and others involved in primary care with a specific interest in allergy may also benefit from this course.

Mayo Clinic's Clinical Updates in Allergy and Immunology 2026, held in Dana Point, California, aims to provide a contemporary understanding of allergic disorders with an emphasis on translating medical knowledge into clinical practice. The program offers a comprehensive multidisciplinary perspective on allergic disorders in a structured theme-based format. This year's course focuses on food-related allergies and gastrointestinal conditions, in addition to common allergy disorders. Expert faculty from allergy, pulmonary medicine, ENT, and various other medical subspecialties present evidence-based and emerging clinical approaches to patient care.

Course details, including the final program schedule, are available on the course website.
