Welcome

Dear Exhibitors,

On behalf of Mayo Clinic General Internal Medicine, we are pleased to invite you to participate in A Systematic Approach to Medically Unexplained Symptoms that will take place August 5-8, 2026, at Loews Coronado Bay Resort, Coronado, CA. This course is intended for physicians, nurse practitioners, and physician assistants who practice in or have a special interest in treating medically complex patients. In addition to the General Session, 2026 will also include an optional workshop **Communicate with Confidence** on Wednesday afternoon, August 5, 2026.

The purpose of the meeting is to provide a diagnostic framework/template for medically unexplained conditions with shared etiologies and presentations. Subsequently, more specific management strategies for each condition will be provided, along with various clinical pearls. The program will cover various medically unexplained conditions seen throughout the scope of internal medicine, selecting from a variety of pertinent general and subspecialty-derived conditions. Expert faculty will present evidence and case-based clinical approaches. The purpose of the Communicate with Confidence Workshop is to equip attendees with concise, non-stigmatizing communication tools to build partnership and foster hope, even in time-limited visits.

We have 24 expert faculty members presenting on topics that are highly relevant to the practitioner. The topics have been carefully selected to attract a wide range of attendees from sub-specialties within internal medicine. We are anticipating an audience of approximately 250 attendees, offering both in-person and virtual (livestream) option for attendees.

To view the entire program and additional information please visit ce.mayo.edu/unexplained2026

We are offering in-person exhibit space. To reserve your spot, please complete the online Letter of Agreement, and pay the exhibit fee in the amount of \$2,000.

Sincerely,

Course Directors for A Systematic Approach to Medically Unexplained Symptoms 2026

Michael Mueller, MD	Elizabeth (Liz) Wight, MD
<i>Assistant Professor of Medicine, Mayo Clinic</i>	<i>Assistant Professor of Medicine, Mayo Clinic</i>

Why Exhibit?

Technical and educational exhibits provide a professional and educational environment in which the physician can receive demonstrations, view products and services and discuss the clinical and surgical uses of these products and services, including how they may improve the quality of care and the management of the medical/surgical practice. Additionally, the exhibits enhance the educational content of the meeting helping to provide quality continuing medical education.

Benefits:

- Interact face-to-face with influential decision makers in the field of internal medicine
- Build visibility for your company in a competitive marketplace
- Expand your customer base and strengthen existing customer relationships
 - Introduce new products and services
