

June 9, 2026

Dear Exhibitor,

On behalf of the Mayo Clinic School of Continuous Professional Development and Course Directors course directors Chadi Ayoub, M.B.B.S., Ph.D., Joerg Herrmann, M.D., Lida A. Mina, M.D. Chris Ray, M.D., Balaji Tamarappoo, M.D., Ph.D. and Surbhi Shah, M.B.B.S., we hope you will consider a display opportunity at the **Mayo Clinic Cardio-Oncology Update 2026** that will take place **November 12-15, 2026**, at the Caesars Republic Scottsdale, Scottsdale, Arizona. We expect approximately 100 in person attendees comprised of general cardiologists, heart failure specialists, and advanced practice providers working in cardiology who either currently practice cardio-oncology or aim to expand their practice into the field to optimize the care of this patient population. The course is also designed for providers in hematology, oncology, and internal medicine as they are often the first to encounter and diagnose patients with cardiotoxicity related to cancer therapies.

This course reviews the prevention, diagnosis, and management of cardiac and vascular diseases of cancer patients throughout the continuum of their care including heart failure, myocardial ischemia, hypertension, thromboembolism, and arrhythmia. It is directed towards the spectrum of providers who care for cancer patients to enable them to recognize the cardiovascular risk of their patients and take action to minimize this risk. This includes physicians, advanced practice providers, pharmacists, and nurses in cardiology, hematology-oncology, primary care, and hospital internal medicine. The course includes lectures from experts as well as interactive case-based and question and answer sessions.

To maintain a clear separation of promotion from education, all exhibits will be held in a different room/location than where the general sessions are held. Exhibits are open from registration until the conclusion of the final lecture on the last day. Display space is limited, and table assignments will be made on a first come, first served basis.

To sign up as an exhibitor or sponsor at this activity please visit the **Mayo Clinic Cardio-Oncology Update 2026- Exhibitor Letter of Agreement** at: <https://ce.mayo.edu/content/mayo-clinic-cardio-oncology-update-2026-exhibitor-letter-agreement>

Choose Your Sponsorship Level

Exhibit fees begin at \$4,000 for the full course. Additional advertisement opportunities are offered to expand reach and provide further interaction with attendees. Exhibit space at the live course is limited.

Please review Sponsorship Opportunities and Additional Advertisement Opportunities on page 3 of this prospectus for full pricing and details.

Exhibit Benefits:

- Promotion available at the live four-day course
- Exhibitors are provided with the same meals and beverages provided to registered attendees
- Attendees are encouraged daily by the course moderator to visit and connect with the exhibitors
- Includes a 6ft table, two chairs and linen at the course
- An attendee list including registered attendee's name, degree, specialty, city, state, and demographics distributed post course

- Vendor recognition in online course syllabus for all registered attendees to access
- An acknowledgement on the break slide announcements during the course
- Exhibitors may sit in the general session to listen to talks of interest if space is available (all company logos must be removed and not visible when entering the education space)

Mayo Clinic, an integrated, not-for-profit group practice, is committed to meeting its responsibility as a national medical education resource. In support of improving patient care, Mayo Clinic College of Medicine and Science is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team. Our programs provide valuable information on unmet needs to the medical community. We sincerely appreciate your consideration and hope you will take the opportunity to join us for a truly unique educational program.

Sincerely,

A handwritten signature in black ink that reads "Karen Steele". The signature is written in a cursive, flowing style.

Karen Steele
Education Administration Coordinator

Additional Advertisement Opportunities:

Lunch Non-CME Product Theatre - \$15,000 (Limited opportunities)

These non-accredited programs, independently developed and directly sponsored by industry, are presented in an educational format that will provide insight on new or controversial developments. Product theatre may not conflict with course content. (Does Not Include audio/visual equipment - No CME credit.) Participating companies are responsible for audio/visual equipment fees.

Breakfast Non-CME Product Theatre - \$12,000 (Limited opportunities)

These non-accredited programs, independently developed and directly sponsored by industry, are presented in an educational format that will provide insight on new or controversial developments. Product theatre may not conflict with course content. (Does Not Include audio/visual equipment - No CME credit.) Participating companies are responsible for audio/visual equipment fees.

Conference Bags - \$3,000 – (Exclusive)

Display your company logo for all attendees to see and announce your presence at the conference. Your company will provide a high-resolution logo to be printed on conference bags ordered by managing committee. All bags will contain flyers and advertisements from other participants. (Artwork to be provided by sponsoring company and is subject to MCSCPD approval)

Conference Bag Inserts - \$1,500 each (Multiple opportunities available)

Conference bag inserts are a great opportunity to invite attendees to your booth, announce your booth participation or share product details with attendees. Your company will provide copies of the flyer or advertisement (no larger than 8 ½ x 11, no more than one page) and the MCSCPD will stuff them into the official conference bags. A limited number of bag inserts are permitted, so early reservation is encouraged. Artwork is subject to MCSCPD approval. (Quantity of fliers/advertisements to be determined 60 days before course.)

Internet - \$5,000 (Exclusive)

Help attendees stay connected with their office and home while away at Mayo Clinic Cardio-Oncology Update 2026. Sponsor the wireless internet access in the meeting space. The supporter will be recognized throughout the meeting in signage and electronic communications.

Lanyards - \$2,000 (Exclusive)

All attendee badges will be distributed with a lanyard to display the badge throughout the conference. The Lanyard will prominently display your company name and/or logo, whichever you choose. (Artwork to be provided by sponsoring company and is subject to MCSCPD approval)

If you have additional sponsorship opportunity ideas that aren't mentioned above, please contact Karen Steele at steele.karen@mayo.edu to discuss.

COURSE HIGHLIGHTS

This course reviews the prevention, diagnosis, and management of cardiac and vascular diseases of cancer patients throughout the continuum of their care including heart failure, myocardial ischemia, hypertension, thromboembolism, and arrhythmia. The course is directed towards the spectrum of providers who care for cancer patients to enable them to recognize the cardiovascular risk of their patients and take action to minimize this risk. This includes physicians, advance practice providers, pharmacists, and nurses in cardiology, hematology-oncology, primary care, and hospital internal medicine. The course includes lectures from experts as well as interactive case-based and question and answer sessions.

TARGET AUDIENCE

This course is designed for general cardiologists, heart failure specialists, and advanced practice providers working in cardiology who either currently practice cardio-oncology or aim to expand their practice into the field to optimize the care of this patient population. The course is also designed for providers in hematology, oncology, and internal medicine as they are often the first to encounter and diagnose patients with cardiotoxicity related to cancer therapies.

LEARNING OBJECTIVES

- Develop an approach to the prevention of cancer therapeutics related cardiotoxicity
- Summarize guideline based cardiovascular surveillance during cancer therapy associated with a risk of cardiovascular toxicity
- Identify an approach to the integration of multimodality imaging into the cardio-oncology practice
- Review advances in the management of TTR and AL cardiac amyloidosis

- Identify key diagnostic modalities for early detection of cardiac toxicity in cancer patients
- Review current therapeutic interventions for carcinoid valvular heart disease
- Assess the cardiovascular risk profile of individuals diagnosed with prostate cancer
- Recognize unique risk factors for hypertension in cancer patients, including treatment-related factors and comorbidities
- Develop an approach to the management of cancer therapeutics related cardiotoxicity

LODGING & ACCOMMODATIONS

Caesars Republic Scottsdale, a Hilton Hotel Scottsdale, Arizona

The Caesars Republic Scottsdale, a Hilton Hotel is offering hotel rooms for attendees and their guests at the group rate of \$374 per night plus applicable fees and taxes. Self parking is available for \$28 per night, and valet parking for \$40 per night.

Reservations must be made by October 23, 2026 or before the room block is filled, whichever comes first.

To make online reservations see the Location tab of the course website at ce.mayo.edu/cardiooncupdate2026.

REGISTRATION FEES

	On or before 10/12/26	Full Price
Registration Fees		
M.D., D.O., Ph.D.	\$950	\$1,025
Allied Health, NP, PA, Retiree	\$850	\$925
IC-OS Board Review	\$150	\$150

PROGRAM AT-A-GLANCE

- Intro to Cardio-Oncology: Guideline Based Surveillance Strategy for Chemotherapy Related Cardiotoxicity
- Intro to Cardio-Oncology: Prevention and Management of Chemotherapy Related Cardiotoxicity
- Traditional Cancer Therapies
- Targeted Therapies for Breast Cancer
- Advanced Heart Failure Management in Cardio-Oncology
- Role of Advanced Imaging in Cardio-Oncology
- Artificial Intelligence in Cardio-Oncology: The Future of Risk Stratification and Early Detection
- Updates in Cardio-Oncology 2026: Current State of Cardio-Oncology Practice and Where Do We Go From Here?
- Anticoagulation for PE/DVT in a Cardio-Oncology Setting
- Vegf Inhibitors and Cardiovascular Complications
- Top Publications in Cardio-Oncology 2026
- Tyrosine Kinase Inhibitor Overview
- BTK Inhibitors
- Special Considerations in the Management of ACS in Cancer Patients
- Cardiac Complications of CAR-T Therapy
- Building a Cardio-Oncology Practice
- Cardio-Oncology Education
- Cardio-Vascular Considerations in Cancer Survivorship
- Exercise and Cardiac Rehab for Cancer Patients and Survivors
- Stem Cell Transplant and the Heart
- CHIP
- Prostate Cancer and Heart Disease
- Hormone Therapy and Cardiac Risk in Breast Cancer
- Childhood Survivorship
- Long QT Syndrome
- Radiation Induced Vasculopathy

- Diagnosis and Management of Carcinoid Syndrome
- Novel Therapies for TTR Cardiac Amyloid
- Treatment of AL Amyloid with Cardiac Involvement
- Atrial Fibrillation Management in Cardiac Amyloid
- Specialized Sessions for Advanced Practice Providers
- IC-OS Session
- Case Study Sessions

GUEST FACULTY

Ana Barac, M.D.
Inova Cardiology

Carolyn M Larsen, M.D.
University of Nebraska Medical Center

Jeremy Larsen, M.D.
University of Nebraska Medical Center

Accreditation Statement

In support of improving patient care, Mayo Clinic College of Medicine and Science is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Statements

AMA

Mayo Clinic College of Medicine and Science designates this live activity for a maximum of 21.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ANCC

Mayo Clinic College of Medicine and Science designates this activity for a maximum of 21.25 ANCC contact hours. Nurses should claim only the credit commensurate with the extent of their participation in the activity.

ACPE

Mayo Clinic College of Medicine and Science designates this live activity for a maximum of 21.25 ACPE based contact hours. Participants should only claim credit commensurate with the extent of their participation in the activity.

Other Healthcare Professionals

A record of attendance will be provided to other healthcare professionals for requesting credits in accordance with state nursing boards, specialty societies, or other professional associations.
