

Maneesh Goyal

Chief Operating Officer, Mayo Clinic Platform

Today we are pleased to welcome **Maneesh Goyal**, a nationally recognized leader at the intersection of healthcare, technology, and innovation.

Maneesh serves as **Chief Operating Officer of the Mayo Clinic Platform**, where he drives the growth of Mayo Clinic's global initiative to transform healthcare through data, artificial intelligence, and digital technologies. He played a key role in designing the Platform model, building an international network of health systems and innovators, and advancing AI and digital solutions into everyday clinical practice, administration and research.

Before joining Mayo Clinic, Maneesh held senior executive roles at **Welltok**, helping scale the company nearly one hundred-fold, leading eight acquisitions, and expanding into new markets around the world. He also spent several years as a Managing Director & investor with **Miramar Venture Partners**, investing in early-stage healthcare and technology companies.

Maneesh began his career as an engineer launching Broadcom Corporation, a Fortune 10 company, earning multiple patents for communication technologies, and he holds degrees from **Worcester Polytechnic Institute, USC, and UCLA Anderson**.
