Dear Exhibitor,

As course directors of the upcoming Mayo Clinic Electromyography (EMG) Neuromuscular Ultrasound (NMUS), and Electroencephalography (EEG) in Clinical Practice, February 14 - 20, 2027 at The Ritz Carlton Amelia Island, Amelia Island, Florida. We would like to invite you to consider a display opportunity. This is a week-long course that consistently attracts approximately 200 practitioners nationally and internationally who have an interest in comprehensive updates on contemporary techniques and clinical applications in electromyography (EMG), neuromuscular ultrasound (NMUS), and electroencephalography (EEG) for the evaluation and diagnosis of neurologic disorders. The attendees consist of primarily neurologists and physiatrists, but other specialists often attend.

Display fees are \$4,500 for the entire conference and \$2,500 for Friday and Saturday only. We are offering additional advertisement/sponsorship opportunities to expand reach and further socialize with attendees.

To maintain a clear separation of promotion from education, all exhibits will be held in a different room/location than where the general sessions are held. Exhibits are open from registration until the conclusion of the final lecture on the last day.

Exhibit Benefits:

- Promotion available at the course from registration until the conclusion of the final lecture on the last day
- Exhibitors are provided the same meals and beverages provided to registered attendees
- Attendees are encouraged daily by the course moderator to visit and connect with the exhibitors
- Includes a 6-foot table and two chairs

Our programs provide valuable information on unmet needs to the medical community.

We sincerely appreciate your consideration and hope you will take the opportunity to join us for a truly unique educational program.

Sincerely,

Devon I. Rubin, M.D.

However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they
